None

Audio: Yes
Video: Yes

On 10/16/2018 at approximately 19:11 Hours, a medical call aired over the police radio. A four year old female was unconscious, not breathing at 30365 HWY. 160 #8, (Lilly Belle Mobile Home Park). I was the closest available unit and responded with lights and sirens. Dispatch advised the female had slipped and fell in the bathtub around 4 PM that day and symptoms began 30 minutes prior to the 911 call.

I arrived at the front door of the trailer. A blonde haired lady was at the front door, and she let me inside. I immediately noticed a man and woman (Father/mother) hovering over a young Native American girl on a couch in the living room area. The mother was crying and the father was trying to wake the girl up. He moved out of the way as I approached. The woman who let me in walked over and stood with another young child who was crying. (Assumed to be a brother of the girl).

I assessed the girl quickly, checking her pulse. I did not feel a pulse. I opened her eye lids and noticed her eyes were black and murky looking. She did not appear to be conscious. I could hear her breathing, but it sounded agitated and faint. She had mucus coming from her mouth area, and I noticed bruising on her forehead. I lifted the child off the couch and placed her on the hard living room floor. I had the father grab the towel off the couch. I placed it underneath her head for stabilization. I then checked her pulse one more time by placing my ear close to her mouth. I could hear what sounded like her struggling for breath.

I began Cardiopulmonary resuscitation (CPR) on the child. I began chest compressions on the girl and did not see any positive results. I quickly sat the child up and held her head. I then attempted to swipe her throat for any obstructions. When I did so, the girl's teeth were clamped shut which didn't allow for a sweep. I knew at that point it was very likely the child was seizing. I gently set the child back down onto the towel.

I ran out to my patrol vehicle and grabbed my medical kit. As I was doing so, medics arrived on scene. An EMT medic and I ran back into the house. I stabilized the girl's head and the EMT used a stethoscope to check for breathing.

The EMT asked, "What happened?" The father said, "I don't know, I just got back from work". The mother said she was playing in there and pointed somewhere in the house and said the little girl had soiled herself. She said she sent her to the bathroom to clean up and had her sister join her. Mother said she helped take the little girl's "poopie clothes" off and the two girls were doing "fine".

Mom said the poop got on the rug and she ran the clothes outside. She said the girls were about done when she got back so she had them get out. She stated the girl was "like this" about thirty minutes before calling.

The EMT asked if she has ever had any seizures before. Both parents said, "No". The mom then said that around 5 PM her daughter said her head was hurting so she gave her five Ibuprofen. She said she also ate a peanut butter and jelly sandwich with a Dr Pepper drink.

She said about 45 minutes before our arrival she started "acting like this". The EMT let the parents know she was doing okay, but that she needed to go to the hospital. He picked her up and walked her out to the ambulance. The mother and father were in shock and were trying to get to the hospital as quick as possible, so not many questions were asked on scene.

I drove to the hospital behind medics. Deputy Backer arrived shortly after. I explained the situation to him. Deputy Backer was going to follow up on questions with the parents.

I left the hospital and called the supervisor on shift, Sgt. Paige. He was informed of what had occurred.

I then contacted Investigator McNeely with LPCSO. Investigator Ezell called me via phone and asked me about the incident as well. He was briefed on what I had observed.

Case Status: Active (Turned over to Investigations)

Nothing Further.

Katherine Ramos interview audio/transcription

1) On Thursday, October 18, 2018, at about 12:00 hrs, myself and Inv. Carrie Bonine interviewed the first person to arrive at Lilly Belle MHP, #8, Katherine Ramos. The following is a synopsis of that recorded and transcribed interview.

Katherine said she was home with her kids when her husband Adolfo called her and said Kaiol just got a call from his girlfriend Kimberly and something is wrong with his young daughter. (Katherine and Adolfo own Ramos Construction company and they employ Kaiol, and live at [REDACTED] which is less than two miles from Kaiol and Kimberly's house).

2) Adolfo asked Katherine to go to Kimberly's house and see if there was anything she could do. When she walked in the door, [REDACTED] was laying on her back on the couch unresponsive, her eyes were open but she wasn't seeing anything. Her breathing sounded like sighing. Kim wanted to wait until Kaiol got home but Katherine knew the girl was in bad shape and called 911. Katherine asked if she could transport [REDACTED] but Dispatch advised her to wait for the ambulance. Dispatch also instructed her on life saving measures to take until help got there.

3) Katherine noticed bruising on [REDACTED] forehead and Kimberly told her she had fallen in the bath tub. She also saw a small amount of blood on her lip where it was cracked but she didn't know if it came from the fall or if it was already cracked.

4) I asked her what her opinion of Kimberly's behavior was and she thought she was calmer than she should have been. She overheard Kim talking with Kaiol, who had just arrived, and Kim said [REDACTED] had been like this for 30 minutes. Katherine didn't understand why she would wait 30 minutes to call for help when there was obviously something wrong with this girl.

5) Katherine went on to say Kimberley is very pregnant and can hardly move or walk, she just waddles. She said Kimberly's family normally deals with medical issues in Shiprock, NM.

6) When the ambulance took [REDACTED] Katherine took the 6 and 2 year old children of Kaiol's to her house for the night. When I asked her how well she knew either Kim or [REDACTED] she said she had met Kim once and didn't know [REDACTED] well. Katherine got the call from Adolfo at 19:00 hrs., and she made the 911 call at 19:11 hrs.

7) On Monday morning at about 09:00 hrs., I drove the speed limit from Katherine's house to Kimberly's and it took 2 minutes and 33 seconds with negligible traffic.

Nothing further. JHH

S18-20921-3: Dep. P. Backer #558
Medical Situation

Attachments:

None

Audio/video: No

At approximately 1911 hours on October 16, 2018, I, Dep. P. Backer overheard a medical call for a four year old female who was unconscious and unresponsive at 30365 Highway 160 E, #8 (Lilly Belle Mobile Home Park). I heard Dep. C. Rieb advise he was responding with his emergency lights and siren activated.

I began heading towards the residence from the [REDACTED] Dispatch advised the female had slipped and fell in the bathtub around 1600 hours that day and symptoms began 30 minutes prior to the 911 call. I heard Dep. Rieb advise Dispatch he arrived and subsequently advised he was giving her CPR.

While still en route to the call, I was advised that medics were going to transport the young child to Mercy Regional Medical Center. Upon arriving to MRMC, I spoke with Dep. Rieb who briefed me on what transpired. I elected to standby at the hospital and see if I could find out more information as to what happened to [REDACTED]

Inside the emergency room, I saw multiple medical staff attending to the child in room 5. I stood nearby as they began preparing [REDACTED] for a CT scan, leaving room for them to work while I stood in the hallway.

Inside the room, I saw a male and female who were visibly distraught. The father, later identified as Kaiol Begay, [REDACTED], was pacing inside the room and the step-mother, Kimberly Joe [REDACTED] was sitting in a chair with tears in her eyes. One of the MRMC staff was speaking with Kimberly about what happened.

I was able to hear this conversation from the hallway. Kimberly told the woman that [REDACTED] had soiled herself in the afternoon and Kimberly told her to take a shower with an older sibling. Kimberly told the staff member that [REDACTED] had fallen in the shower, according to the older sibling. MRMC staff continued to work on [REDACTED] and took her to get a CT scan. As they wheeled the child past me, I could see some bruising to the left side of her face/forehead.

I stepped inside room five and introduced myself to Kimberly and Kaiol. Kimberly began telling me what happened, explaining she had gone outside to throw away [REDACTED] soiled clothes, went inside and they all continued about their day. She told me they sat down to dinner, where [REDACTED] had a peanut butter and jelly sandwich and everything seemed fine. Kimberly explained that after dinner, [REDACTED] began acting different and told her that she was cold.

Kimberly explained she began to notice some injury to [REDACTED] face and that was when the older sibling had told her about [REDACTED] falling in the shower. Kimberly said [REDACTED] condition worsened, so she called Kaiol and called for medical assistance. Although I had just begun speaking with Kimberly, a nurse stepped in and told me they needed space to bring [REDACTED] back inside the room and asked me to wait in the family room. I agreed to postpone speaking with Kimberly, but I waited in the hallway in case they needed any further assistance.

Several minutes later, another nurse had asked the parents to speak with her in a room away from [REDACTED]. I followed and listened as Kimberly spoke with the nurse. Kimberly told the nurse they had just gained custody of [REDACTED] from the maternal mother and the state of Utah about two months ago. Kimberly was unsure of most of [REDACTED] medical history and explained the custody battle. As ER staff collected name's and dates of birth for the parents, I wrote down that information. I asked Kimberly for [REDACTED] date of birth, but she was so stressed out that she told me she could not remember it. The nurse thanked the parents for their time and told them they could go back to the room where they were tending to [REDACTED].

As we were walking back, one of the MPMC staff pulled me aside and told me that the child had pretty serious injuries and that she would have to be flown to Children's Hospital in Denver for further care. I stepped outside, contacted Sgt. Paige via telephone and told him the situation. He elected to call the on-call investigator.

Investigator McNeely and Lieutenant Investigator Ezzell and I spoke via telephone and I explained to them the situation. Inv. McNeely responded and the case was turned over to Investigations.

Case Status: Active (Turned over to Investigations)

Nothing Further at this time.

Evidence Log

On 10/18/2018 at approximately 1500 hours, Lt. Ezzell and I went to the address of 30365 HWY 160 E, Lilly Belle MHP, unit #6, to the residence where [REDACTED] lived, and to where the reported incident occurred. The father of [REDACTED] told Inv. Berryhill in Denver that he gives us permission to enter the home through the back door to conduct our investigation.

We arrived at the trailer around 1500 hours. We entered through the back door. In the laundry room at the south end of the home by the kitchen was where we located the hot water heater. The heater is a Rheem model [REDACTED]. The setting on the water heater temperature was at B.

Prior to arriving at the residence, we stopped at the local store and purchased a Mainstays Meat Thermometer.

We turned on the hot water to the tub in the bathroom where the incident is reported to have occurred. The water temperature rose to 140 Degrees Fahrenheit. It stayed at a constant 140 degrees.

I recorded the water running and the constant temperature for approximately one minute.

After photographing the hot water heater and the temperature recording in the bathroom, we exited the house.

On 10/19/2018, Investigator Berryhill emailed me the release of medical notes from Children's Hospital. Below are copied key notes of the report.

A release of medical records was requested from the Anschutz Medical Campus/ Children's Hospital Colorado Emergency Department.

Guide:

PT- patient [REDACTED]

FOC- father of child Kaiol Begay

MOC- mother of child Salencia Bitsilly

SOC- sister of Child [REDACTED]

SMOC- Step mother of child Kimberly Joe

BOC- brother of child (unknown name)

NAT- non-accidental trauma

Page 8 continued by M.D. Blackwood

"Assessment:

[REDACTED]

Medical Record document page 23 of the record states:

Requesting Attending: Kulungowski, Ann Marie,
Consulting Attending: Andrew Sirotnak, MD
Consulting Service: Child Protection Team
Person and Service Requesting Consult: ICU
PCP: Shiprock, MN - name unknown
Date of Consult: 10/17/2018
Time Consult Performed: 1100

IMPRESSION: 4 year old with what appears to be a presentation of acute altered mental status secondary to a possible brain injury from an un-witnessed fall in bathtub. The minor history of trauma here did not correlate with her acute presentation and subsequent neurological decline. The possibility of an abusive head trauma with a delay in care, after a transient loss of consciousness and/or seizure activity is a distinct possibility given repeat imaging findings.

Soft tissue injuries are more extensive than usually seen in routine child play, including lower extremity soft tissue contusion that may be a pattern. Posterior of body cannot be examined due to patient instability and needs to be reexamined when patient stable enough to be rolled. I would be concerned if there is back or soft tissue injury and areas again not routinely associated with child play. The history of a soiling event preceding a un-witnessed fall with trauma while being cleaned must raise concern for an injury that may have occurred in this context; soiling accidents can be triggers for physical discipline by caregivers or non-accidental.

Complex social history is apparent and needs further risk and safety assessment as well as immediate assessment of safety for siblings in the home.

[REDACTED]

"Nutrition History: 10/17 per Father of Child

Home Diet: Regular; Oral

Home PO Diet: Regular table foods, with transition from foster care to FOC and Step MOC house 2 months ago, reportedly diet changed from junk food (mac and cheese, McDonald's) to homemade meals. Pt was picky at first but has transitioned to new diet ok. Pt was wanting bottle indicating to FOC that bottle was given to her at Foster Care. Now drinking from cup. Takes milk, fruits, vegetables, chicken, beef, fish, bread, pasta, rice.

PO diet includes a variety of food groups: yes"

Page 37 Medical Document: Author; Teresa Morales Colassi, L.C.S.W. 10/17/2018 4:16 PM

"FOC has noted weight loss over the past month and reports he took the pt to WIC who commented her eating habits may be changing and suggested perhaps she is having a growth spurt as she has grown taller as well. "

Father Kaiol Begay was working with boss Adolfo Ramos on Tuesday from 0700 till he received the call from Kimberly Joe that something was wrong with [REDACTED]. Ramos confirmed Begay was at work. Ramos also said he witnessed the call from Kimberly about [REDACTED]. He said Begay also worked for him Monday 10/15/2018 from 0830.

Father's statement obtained at Children's Hospital. Please refer to medical document page 13.

"History obtained from: Father

[REDACTED] is a 4 year old female, without any significant past medical history, who presented yesterday (10/16/2018) evening with loss of consciousness and respiratory failure. She was in her normal state of health yesterday at home with her 6 year old sister and step-mother when she was found to have stool incontinence around 4:00 PM. This is not unusual for [REDACTED] as she is not completely potty trained and has episodes of urine/stool incontinence. Her sister took her into the bathroom/shower to clean up, when her sister reports that [REDACTED] suddenly fell and hit her head on the edge of the bathtub while she was washing one of her feet. It is unknown level of water in bathtub and if she swallowed any. [REDACTED] got up right away and did not seem to be overly affected by the fall. Her sister was able to dress [REDACTED] and they then got something to eat, with reports of her acting per baseline. At approximately 6:30-45 PM, the father states that he started receiving text messages from his wife (the step-mother) regarding concerns for [REDACTED] not acting per her normal self, and that she was on the couch "snoring" with decreased responsiveness. Snoring sound described by the 6 year old sister as a "humming" or moaning like noise. The father states that he then hung up and called 911. The father reports arriving before EMS, but at the same time as a police officer. They found [REDACTED] unresponsive, and immediately began CPR. CPR was provided for about 1-2 minutes, of which EMS had arrived and took over, stopped CPR, and transported patient to OSH. She was intubated at OSH and CT scan demonstrated trace acute focal extra-axial hemorrhage overlying the left parietal convexity without associated mass effect.

The father states that [REDACTED] had an upper respiratory infection about 1 month prior, for 1 week, and symptoms had since resolved. Denies any recent head injuries or trauma. [REDACTED] did sustain a burn on her right hand when she was cooking with her step-mother approximately 2 weeks ago, but it has since been healing.

There is no known family history of seizures, blood disorders

(clotting/bleeding), early onset stroke, cardiac disorders, or unexplained deaths.

██████ has most recently lived with her biological father and step-mother."

Per medical report page 24 and 25: Author: Andrew P Sirotnak M.D. 10/17/2018
1:12 pm

"Father denies the child has been ill recently with no history of fever, vomiting, or difficulty breathing. She has not had diarrhea but has a history of recurrent stooling and wetting accidents that have been difficult to address and control. He denies any other known head trauma this week. Father reports that the only thing that was out of the ordinary was child said her head hurt on Monday and the stepmother gave her Tylenol and she seemed better. This history of head hurting was not related to trauma per his self-reported history and knowledge at this time. She does have some dog scratches on her chest near her collar bone; bruises on her knees he sent her from a fall during a play incident this week; he had no knowledge of etiology of bruising on one of her thighs; and he noted Sibling ██████ who is older had the same type of mark when she was younger."

Page 37 medical document: Author Teresa Morales Colassi, L.C.S.W. 10/17/2018
4:16 PM

"FOC reports that per step-MOC around 4pm yesterday the pt and SOC were playing on the carpet when the pt had an "accident" and pooped all over her clothing and the carpet. Step-MOC put pt in the shower to clean off with SOC to help and MOC went to do laundry though needed to throw out clothing because it was so soiled. FOC reports he was told the pt was doing fine after the shower, that she got out, dressed herself, had a snack, and sat down on the couch with SOC later. SOC reportedly called out for step-MOC as she felt the pt was "snoring weird." Step-MOC became concerned and contacted FOC as well as FOC's boss's wife as they live nearby, and then 911.

FOC shared that SOC made a comment "why is she doing it again?" and with further explanation explained that the pt had similar snoring event while in foster care with "grandma" as well. FOC does not have additional information.

FOC reports noting bruising to patient's knees and states one side is from falling off the slide this past weekend. FOC reports pt has some scratches to her chest from holding their new puppy. FOC denies awareness of additional marks though does not that 2 year old BOC has been somewhat jealous since pt and sister's arrival and notes he can be rough with pt and throws toys at her."

S18-20921-5 ; Inv. Harrington
Death of Child/ Child Abuse Investigation

Deceased: [REDACTED]

On Tuesday, 10/23/2018, at approximately 9:00 am, I attended Begay's autopsy. Investigators Berryhill, McNeely, Lt. Ezzell and I were present. Coroner Jan Smith and assistant George were also present.

Dr. Arnall performed the autopsy after reviewing the provided medical records the day before from Mercy and also Children's Hospital. During the autopsy Dr. Arnall said there was no clear sign at this point of injuries that would cause the death of Begay. He collected samples and informed all of us it was still undetermined to what caused the death of [REDACTED] and we would need to wait for further examination of the tissue samples and other items.

At this time, I am still waiting on the Post Mortem / Toxicology report and final Coroner Ruling and Forensic Pathologist Report.

Note: Berryhill took photographs of the autopsy.
End of report.

La Plata County Sheriff's Office

Child Abuse Inv - Death of child

V: [REDACTED]

1) On 10-16-18 at 2056 hrs., I received a call from Inv. Thad McNeely concerning an injured child who had just been transported to Mercy ER. He told me the child appeared to have serious injuries and may not survive. He told me he was en-route to the Mercy ER. He told me Deputy Cody Rieb had responded to the scene.

2) At 2108 hrs., I contacted Dispatch and obtained the address for this incident. I was advised the location was 30365 Hwy 160, the Lilly Belle MHP, space 8.

3) At 2111 hrs., I contacted Rieb by phone. He told me he was no longer at the scene. He told me the call came out as a medical call. He told me Deputy Patrick Backer was at the Mercy ER. See Rieb's report for further details concerning his actions and observations.

4) At 2124 hrs., I contacted Backer by phone. He advised me that he was still at the ER. He told me he had not made it to the residence and had responded to the ER where he met with Rieb. He told me Deputy Shannon Baker had responded to the residence with Rieb. See Backer's report for further details concerning his actions and observations.

5) At 2134 hrs., I spoke with Baker. She told me she met briefly with Rieb outside the residence. She did not enter the residence and medics were preparing to transport. She told me she did not speak with anyone other than Rieb and she left the scene, ending her involvement.

6) At 2216 hrs., I received a call from Rieb. He told me he had additional information after reviewing his body cam footage. See his report for further details.

7) At about 2230 hrs., I arrived at the Mercy ER. I met with McNeely inside the ER. He briefed me on the case. He told me [REDACTED] was being airlifted to Children's Hospital and that her father, Kaiol Begay, was going with her. He told me the step-mother, Kimberly Joe, was in the family room in the ER and that she was about eight months pregnant and not doing well. He told me [REDACTED] condition was critical. See his report for further details concerning his actions and observations.

8) Prior to arriving at the ER, I drove by the residence and observed that no one was present.

9) While at the ER, McNeely and I spoke with Adolfo Ramos, Kaiol's boss. He confirmed that Kaiol had been at work all day and was at work when Kimberly called him to let him know something was wrong with [REDACTED]. He told us he also called his own wife and had her respond to the residence to check on Kimberly and [REDACTED].

10) We arranged to meet with Kimberly at her residence on the morning of 10-17-2018.

11) On 10-17-2018 at about 1030 hrs., Berryhill, McNeely and I met with Kimberly at her residence. She invited us in. While Berryhill and I spoke with Kimberly,

McNeely documented the interior of the residence with photographs. He also checked the water in the bathroom where Kimberly reported that [REDACTED] had fallen. See McNeely's report for further details of his actions and observations.

12) The conversation Berryhill and I had with Kimberly occurred inside her residence primarily in the kitchen/front room area and it was recorded.

13) Kimberly told us that [REDACTED] had "pooped" herself and that she had [REDACTED] and her sister get in the shower together. [REDACTED] six year old sister, [REDACTED] was in the shower helping [REDACTED] get clean while Kimberly cleaned the house. Kimberly told us that [REDACTED] had fallen in the shower, but that she did not see or hear this happen. She told us [REDACTED] told her about the fall later. She also told us that while in the shower, the washing machine was on and [REDACTED] was hit with very hot water.

Kimberly told us that after the shower, [REDACTED] and [REDACTED] went outside to play. She told us that while outside, per [REDACTED], [REDACTED] had fallen on the slide. I did not observe a slide in the backyard so I asked Kimberly for clarification about the slide. She pointed out the stairs on the back deck (north end) and explained the kids referred to this as a slide. She described that [REDACTED] had gone down the stairs on her back, feet first.

Kimberly talked about her two year old son being rough on [REDACTED] he would strike her with toys and had struck her recently on the head/face with a toy bus. Kimberly told us that [REDACTED] ate a peanut butter sandwich.

14) While at the residence I collected a bag of clothing and some tissues from Kimberly. She told us the tissues contained some of the poop she cleaned up. The clothing is the clothing [REDACTED] had been wearing when she pooped herself.

15) Kimberly allowed us to view her phone log and texts related to this incident. She allowed Berryhill to take photographs of the various screens related to this viewing.

16) For further details concerning our contact with Kimberly, review the recording. The recording was given to McNeely for preservation, as it was his recorder we used.

17) For details concerning information from the screens on her phone, we viewed see the photographs Berryhill took.

18) On 10-18-2018 at about 1500 hrs., Harrington and I went to the address of 30365 HWY 160 E, Lily Belle MHP, space #6, to the residence where [REDACTED] lived and was injured. Kaiol had given Berryhill consent for us to enter the home and to continue our investigation.

19) We entered the residence through the back door. We located the hot water heater in the laundry room at the south end of the home. The hot water heater is a Rheem model [REDACTED] We observed that the setting for temperature control was on B.

20) Using a Mainstays Meat Thermometer from Wal-Mart we checked the temperature of the hot water flow in the bathtub where [REDACTED] was injured. (Personnel at the fire department had previously advised me that a meat thermometer was a reliable tool to use to determine the temperature of hot running water.)

21) We turned on the hot water in the tub in the bathroom where the incident is reported to have occurred. The water temperature reached 140 degrees

fahrenheit and stayed at that temperature for at least one minute.

22) Harrington photographed the hot water heater and the temperature recording in the bathroom and we then left the residence.

23) On 10-22-2018, I spoke with Phillip Joe by phone [REDACTED]; he is Kimberly Joe's father. He told me the kids are staying with him. He told me Kimberly is back at the residence in Lilly Belle with Kaiol. He told me That Kimberly has been very emotional and has not given him any details if the the day [REDACTED] was taken to the ER. He told me [REDACTED] talked about [REDACTED] complaining about her head hurting and that they gave her some gummy bears or something like that - it was not clear to him.

Phillip also told me Kiaol told him he had heard from other family/persons (not LE) that the cops had been called on Kimberly and that we believed she had fled and was being uncooperative. I assured him that we did not believe she had fled and that she had been very cooperative with us in this investigation; we had no reason to believe otherwise.

24) On 10-22-2018, Dr. Mike Arnall reviewed [REDACTED] medical records from Mercy and Children's Hospital.

25) On Tuesday, 10-23-2018, at 0900 hrs., Arnall conducted an autopsy on [REDACTED] a Hood's Mortuary. Investigators Berryhill, McNeely, Harrington and I were present. Coroner Jann Smith and assistant George Liese were also present.

26) Berryhill took photos during the autopsy for SO records and McNeely took photos as directed by Arnall.

27) During the autopsy Arnall collected samples from [REDACTED] body. Samples included tissue from various internal organs; tissue from suspected bruising and other injuries; a section of the spine; both eyes and the brain; fluids for toxicology/cultures.

28) Arnall told us he observed no clear cause of death at this time and he would need to complete further exams at a later date on the tissue samples he collected.

29) The autopsy report is pending.

30) I spoke with the Coroner on 10-24-2018. She told me George Liese will be transporting [REDACTED] body to a funeral home in Farmington, NM on 10-25-2018.

None- see Berryhill's report for evidence log

On 10/24/2018 at approximately 1030 hours, a video conference was held with Dr. Siratnak and other staff members at Children's Hospital to discuss the case of the death of [REDACTED]

Dr. Siratnak with very clear that in his opinion the injuries that [REDACTED] suffered, and believes caused her death, are from non-accidental injuries as a result of child abuse. He stressed his concerns over the several bruises on the body. He said in his professional opinion the bruises could not have been caused from normal day to day child play.

After the conference call, Kaiol Begay and Kimberly Joe arrived to meet with CPS case worker Jessica DallaCundiff. During which she discussed with both of them what was said by the Doctors at Children's Hospital. Kimberly was sitting right next to Kaiol as he was directly told the [REDACTED] death was caused from non-accidental injuries caused from child abuse.

Kaiol was asked how he felt about that, and he said he understood. He continued on and said the autopsy will show that [REDACTED] was not abused. Kaiol said he works a lot but he knows his children have not been abused. He said he comes home every night and asks his girls how their day was. Asks them what they did and what they learned. He said he would have known if something was going on. He stated, "[REDACTED] would have told me."

As DallaCundiff spoke to Kaiol and Kimberly, I observed.

Kimberly is 40 weeks pregnant and due anytime. Before entering the room as we walked down the hall way, she walked in a waddling fashion from side to side. As we sat in the room she kept her composure as best as she could. I could see she was holding back her emotions. She would wipe her eyes often and keep her hand on Kaiol's left leg as support. She at several instances could not hold back the emotions anymore and would cry. She asked sincere questions about if she made a mistake when she first heard [REDACTED] making the strange breathing sound which she demonstrated. As she spoke about this, she was crying and appeared to be genuinely upset.

Though it was made very clear that Kimberly is the suspect and possibly the one who caused the injury/injuries to [REDACTED] resulting in death, Kaiol was adamant she had nothing to do with it.

On 10/25/2018 at approximately 0936 hours, Investigator Berryhill and I conducted an interview of Kimberly Joe. Kaiol Begay was also present for a large portion of the interview.

During the interview Inv. Berryhill asked the majority of the questions, for he was present at the interview at her home the day after the reported incident.

The interview went as recorded:

Inv. Berryhill first informed Kimberly she was not under arrest and she was free to leave at any time. She was also informed she did not have to answer any questions we asked if she did not want to. During the interview Kimberly Joe was asked to start from the beginning.

1) She started by making note that on Sunday, a few days before, [REDACTED] had told Kaiol that her head was hurting. He asked her what from and did not get an answer. They gave her some children's Tylenol and then Kaiol started rubbing her head as she sat on his lap. While he was rubbing her head, she vomited all over his shirt. They said [REDACTED] did not complain of any stomach issues or feeling sick. They said she had never done that before or prior. She had no other issues the rest of the night.

2) Kimberly said her and Kaiol both agreed they would not discipline the girls (indicating [REDACTED] by spanking. She said they only talk to them.

3) It was clear that Kimberly doesn't make any decision about the girls without her first contacting Kaiol. Kimberly said she calls or texts Kaiol throughout the day filling him in on what is going on with the kids.

4) On Monday, 10/15/2018, Kimberly woke up having pains related to her pregnancy. It persisted so she called Kaiol and they went to Shiprock, NM to see a doctor. When they got there they dropped all the children off at her parent's house, (Phillip Joe's residence). She said the baby was breeched and so the doctor had to turn the baby in her stomach. The procedure for turning the baby is called a version.

5) She said they picked up the kids from her parent house and arrived home around midnight. She said she was told not to lift much, and not to pick up or lift any of the children. She said she was really sore from getting the baby turned in her belly. Kimberly is 40 weeks pregnant.

6) On Tuesday, 10/16/2018, Kimberly said she got up that morning and was still very sore from the doctor's visit. She got [REDACTED] up to get ready for school. When [REDACTED] was ready, she asked her if she could walk to the bus on her own. She said [REDACTED] was really excited to be allowed to go on her own. When [REDACTED] left, she started making breakfast for [REDACTED] and her youngest son [REDACTED] Kaiol was still at the house at that time.

After breakfast Kaiol went to work. Kimberly said [REDACTED] told her after she ate most but not all of her breakfast that she was tired and said she was going to go back to bed. Kimberly said she was fine with that because she was also still hurting and tired from the day before. Kimberly also said it was not completely out of the ordinary for [REDACTED] to go back to bed after breakfast.

7) Kimberly said she had to wake [REDACTED] up a couple hours later. She said she complained of her head hurting at that time. Kimberly said she gave her unicorn medicine which is only candy M&M's. She said the rest of the day [REDACTED] played with her little brother, as she cleaned up the house. Kimberly said she felt better moving around instead of sitting down.

Note: Kimberly said they don't like giving the children medicine unless they absolutely need to. She said they like to use more natural remedies including oils and herbs.

8) Kimberly said she fixed [REDACTED] Ramen noodles for lunch. She said [REDACTED] ate all of her food.

9) Around 1510 hours, [REDACTED] got home from school. When she got home she asked [REDACTED] how her day was. (Note: [REDACTED] had been getting bullied at school.) When [REDACTED] got home she asked to go outside and play and Kimberly told her no not at this time.

10) [REDACTED] brought her toys into the play area sitting on the Paw Patrol Rug. Kimberly noticed as she was sitting there playing, [REDACTED] had soiled herself and it had gotten onto the rug. Kimberly asked her if she had pooped and [REDACTED] told her, "I not, I not potty". This was around 1600 hours according to Kimberly.

11) Kimberly was later asked how she reacted to [REDACTED] pooping, and if it angered her. She said no, her son still has accidents also.

12) Kimberly took [REDACTED] to the bathroom and started a shower for [REDACTED] during which [REDACTED] had feces on her hands and had touched the sink and other places. After Kimberly put [REDACTED] in the shower, as she was still in the bathroom she heard the washing machine change cycles and then [REDACTED] yelled the water was hot. Kimberly said [REDACTED] was at the back of the tub, at which Kimberly pointed the shower head straight down as she adjusted the water temperature. She said she noticed the redness on [REDACTED] back when she got out, and figured it was from the hot water exposure.

13) Kimberly asked [REDACTED] to get in the shower with [REDACTED] while she cleaned the feces. [REDACTED] got in the shower making comments about there being poop everywhere. Kimberly said she left the girls in the shower to themselves. She said she lets that be time for the girls to have to each other. Kimberly believes the girls were in the shower for about 15 minutes.

14) She left the girls in the shower and took [REDACTED] out of the bathroom. She then started cleaning up the soiled clothes of [REDACTED]

15) Kimberly helped [REDACTED] get out of the shower. As [REDACTED] walks to her room, Kimberly gives [REDACTED] a slight slap on the leg telling her don't do that again. Kimberly said it was not so much a swat as to dicipline, but more of a way for her to joke with [REDACTED]. She said she smiled at [REDACTED] when she did it and [REDACTED] saw it.

16) [REDACTED] came out and [REDACTED] was still awake and the two played together. Kimberly put some Castro Oil in [REDACTED] hair. Then [REDACTED] came out and she also put the Castro Oil in her hair, but [REDACTED] complained about the left side of her head hurting. She said ouch, ouch. Kimberly asked [REDACTED] if she was okay and she said ya. Kimberly braided [REDACTED] hair.

17) [REDACTED] asked to go outside. Kimberly told them no, not until their hair was dry. The girls stayed inside and played for a while.

18). [REDACTED] helped Kimberly roll up the rug because it still smelled like poop. [REDACTED] also helped her drag it outside. This was around 1730. Then the girls and [REDACTED] went outside.

19) Kimberly said she heard [REDACTED] cry outside, so she went out and checked on them. She said [REDACTED] was at the bottom of the stairs. Kimberly told them she heard one of them crying so it was time for them to come inside.

20) After [REDACTED] came back inside, she complained about her head headache to Kimberly. Kimberly gave [REDACTED] 5ml of children's Ibuprofen. She then offered [REDACTED] a Dr. Pepper and a peanut butter and jelly sandwich.

21) After [REDACTED] finished her meal, she went from the table to the living room and sat on the far end of the couch. She laid down for a little bit. She seemed fine and was watching TV.

22) Kimberly went back into the kitchen to start dinner. [REDACTED] and [REDACTED] were playing around [REDACTED]

23) Around 1830 hrs., [REDACTED] said [REDACTED] is snoring funny. Kimberly went to [REDACTED] and she said [REDACTED] was making eye contact. Kimberly asked her what was going on, but she did not answer. All [REDACTED] did was take a deep breath and then exhale with a hmmm noise. Kimberly told [REDACTED] to get her phone that was plugged into the charger.

24) Kimberly called Kaiol, but he was not answering yet. She laid [REDACTED] back down on the couch.

Note: Kimberly was crying during this point of the interview, we asked her if she wanted to take a break, and offered her a snack, which she accepted.

25) After the break Kimberly chose to keep going with telling us what happened. Kimberly said [REDACTED] was breathing odd. She called Kaiol, and then text him to call her back. He called her via Facetime. She asked him what should she do, and she showed him [REDACTED]. He said, "I'm coming, I'm coming." Kimberly said she dropped her phone and then went to [REDACTED] and rubbing her hair telling her daddy's coming and we are going to the doctors.

26) Shortly after speaking to Kaiol, Katherine knocked on the door. Kimberly asked her if she was going to take them to the doctor. Kimberly said Katherine walked over to [REDACTED] as she started getting all of her stuff together to take to the hospital for the other kids. Kimberly said she thought Katherine was going to take them to the hospital.

27) She said Katherine asked her what she wanted to do, and a Kimberly said, "I want to take her to the hospital." Katherine said, "I will call the paramedics." Katherine adjusted [REDACTED] her what she was told by Dispatch.

28) She called Kaiol and she said he was by Mercy and wanted to know if they were their yet. She told Kaiol, "No, come home now and get us."

29) When Kaiol arrived Deputy Rieb arrived just seconds after. Kimberly said the officer said [REDACTED] was not breathing, and then pulled [REDACTED] onto the floor and put a towel underneath her head. Rieb started CPR, Kimberly told him, "Don't, she is fragile, don't break her ribs please." Kaiol then told Rieb she is breathing, and he said, "No, I've got to go get something." Medics arrived at this point and took over.

30) Kimberly kept asking the medics if [REDACTED] was breathing, which the medics said yes, she was. Paramedics took [REDACTED] to the hospital. Kimberly gathered the things she would need. [REDACTED] asked, "Why are the cops here? Are they going to take me to." Hyrum was also upset. Katherine stopped Kaiol and Kimberly and asked if she wanted her to take the kids. Kaiol said, "Yes, yes please take them." They followed the ambulance to Mercy.

31) Kimberly was asked about the bruises on [REDACTED]. She said [REDACTED] had a bruise on her head from [REDACTED] swinging a toy and hitting her in the face while in the truck. She said she and [REDACTED] both have Mongolian spots on their backs. She said she did feel some of the skin and abrasions on her back. She said she felt that when she picked [REDACTED] up on the couch when she wasn't breathing right. She

said she was rubbing [REDACTED] back when she noticed. She said they were not there when she was in the shower around 1600. She said she was not sure how she got them.

32) Kimberly said she asked Thad McNeely if she could have gotten that on her back from the hot water. Bruises on [REDACTED] knees were from playing and sliding on her knees. She said those bruises were there to get rid of. She said she also knew of the scratches around her waist area. This concerned Kimberly because [REDACTED] had a problem with getting yeast infections.

33) Burns on her hands happened the first week she was with them. Kimberly said she was in the bathroom with [REDACTED] and she had set out a pot with freshly cooked noodles. Beforehand [REDACTED] helped Kimberly prepare it. She told the girls the noodles were done but let's finish cleaning and let the noodles cool down first. Kimberly said she then heard [REDACTED] scream, and she ran back and [REDACTED] had gotten burned. Kimberly had called the hospital and they told her to put antibiotic cream on it. Kimberly said what made it worse was that [REDACTED] peeled the blisters back when it was healing.

34) Kimberly was asked at one point was [REDACTED] responsive and talking on the couch, how long after that was she not? Kimberly said it was about twenty to thirty minutes between when she noticed [REDACTED] breathing strangely and the time the paramedics arrived.

35) Kimberly was asked if there was anything else that might have happened to [REDACTED] that day. She said other than slipping outside and her fall. She asked [REDACTED] how did [REDACTED] fall. [REDACTED] said she went down like a slide on the steps. She said she fell down the steps. Also [REDACTED] said [REDACTED] fell in the shower and hit her temple on the left side in the shower. [REDACTED] told Kimberly about the two falls when she moved [REDACTED] after she noticed her breathing weird. She asked [REDACTED] "Did sissy fall or get hurt today, did [REDACTED] hit her?" [REDACTED] is [REDACTED]

36) [REDACTED] said she did fall and also in the tub because she was being naughty.

37) Kimberly said she gave [REDACTED] 5m of the liquid children's ibuprofen, but had not given her anything else. No known allergies that they knew of.

38) Before this [REDACTED] never spoke about headaches that they knew of.

39) After leaving the hospital Kimberly went to Ramos's house to pick up the other children. [REDACTED] made a comment to Kimberly about why was sissy breathing funny again like that. Kimberly asked her what do you mean, breathing funny. Ya breathing funny. She said [REDACTED] did that before. Kimberly made the noise like what [REDACTED] was sounding like.

40) [REDACTED] said do you remember the foster grandma that we used to live at. The little brother and the big brother; the little brother was being mean to [REDACTED] and was hitting [REDACTED] with a toy. That night she was crying and breathing and snoring funny. So I went to tell the foster grandma, but the foster grandma just went to sleep. She also tried telling another male there that she was asked to call dad, and he just went to sleep also.

41) [REDACTED] went back to [REDACTED] and said she had to rub [REDACTED] head till her hands got tired and then she fell asleep.

42) This occurred at the Scott's residence, and Darin Scott was present and the person that was said to have been sleeping in the girl's room with them while they lived there.

43) Kimberly called her mother this morning. [REDACTED] and the other kids are currently staying with Mr. and Mrs. Phillip Joe. Mrs. Joe (Kimberly's mother), said [REDACTED] made a comment to her about, "Is it my fault sissy is in the hospital." Kimberly's mom talked to her and told her, "No it is not your fault." She said [REDACTED] does think it is her fault.

44) Kimberly was asked if she disciplined [REDACTED] for soiling herself. She said she swatted [REDACTED] on the leg after she got out of the shower, but smiled at her. She said it wasn't like a discipline swat.

45) [REDACTED] was not soiling herself so much in the past, but the beginning of this month she starting doing it more frequent. She said [REDACTED] would get upset because Kimberly would make her wear a diaper. Kimberly said it was like she didn't know she was soiling and urinating her pants. She made a comment that her boys starting doing it again too.

46) Kimberly said she would call Kaiol when [REDACTED] soiled herself and have her talked to her dad about why she did it. She said they agreed not to discipline the girls through spanking.

47) Berryhill asked Kimberly if she was responsible for any of the injuries? Kimberly said yes, their my girls, she was my little tail. She continued on summing up that she was responsible for them so all the injuries ultimately fall on her as the mother and caretaker. She said she was trying to let them be kids, and to let them feel strong and believe they could do anything.

48) I asked her at the end of the interview if she accidentally caused the injuries to [REDACTED] she said no. She said she allows them to explore on their own and be kids. To hear that [REDACTED] fell twice and that she wasn't there Kimberly said it makes her feel guilty.

49) I asked Kimberly if she ever noticed when she did [REDACTED] hair that there was any bruising? She said no, then went on to talk about she has had other injuries from her brother hitting her with a toy. She said while she was lying on the couch, they did undo [REDACTED] hair and did not see anything.

50) Kimberly answered all our questions. We ended the interview at that point.

Please see interview stored in evidence.

Two incident detail logs from Dispatch - 20921 & 20927

1) I received the incident detail logs from Central Dispatch and I have attached them to this case file.

2) I also received the phone and radio traffic recordings from Central Dispatch.

3) I placed the recordings on a disk and submitted the recordings into evidence under this incident number (20921).

4) I learned that the reason for two separate incident numbers (20921 & 20927) is that the first incident was closed and could not be reopened for additional information so the second incident was opened to continue documentation.

On 10/30/2018 at approximately 1300 hours, I called and spoke to Phillip and Tina Joe, the parents to Kimberly Joe. Kaiol and Kimberly's children had been placed with them while the investigation is being conducted.

I first spoke to Phillip Joe. I asked him if [REDACTED] had mentioned anything about what happened to [REDACTED]. He said the only thing he heard [REDACTED] say was on Monday the day before the incident, when [REDACTED] stayed with them while Kimberly and Kaiol went to see the doctor. He said when [REDACTED] arrived, she told Phillip her head hurt, and [REDACTED] commented she says that to get unicorn medicine (M&M's). However, Phillip continued and said [REDACTED] did not play much if any at all that afternoon with the other kids. He said she complained about her head hurting and just sat on the couch. Phillip said he accompanied her on the couch, and even tried to persuade her to go play with the other children.

Phillip said he did run his fingers through [REDACTED] hair to see if she had any bumps or sores. He said he did not notice any. At the end of the day Kaiol and Kimberly came back after finishing up at the doctor's office and picked up the kids and headed back to Durango.

I asked Phillip if he noticed any other bruises on [REDACTED] that day, and he said no, she was wearing pants and a shirt.

I then asked to speak to Phillip's wife and mother to Kimberly, Tina. I asked the same questions to Tina. Tina told me [REDACTED] made a few comments about movies they watched saying [REDACTED] used to really like this movie. I asked Tina if [REDACTED] ever made the comment or asked if it was her fault that [REDACTED] was in the hospital. Tina said she did not recall her saying anything to those exact words, but Tina did say she made comments similar. Tina told me she would stop [REDACTED] and tell her, "Why don't you let the adults worry about things like that and you go play and have fun with the kids." Tina said [REDACTED] would say okay and then run off and go play.

Tina told me she has been concerned for Kimberly being pregnant and also having to take care of all the kids. She said Kimberly has to cook, clean and watch up to four kids at a time while Kaiol works. She said she knows it is too much on Kimberly. Tina said Kimberly's oldest son [REDACTED] is a good boy and so is her youngest son, [REDACTED]. She continued and said [REDACTED] on the other hand can also be a little overwhelming sometimes because he is a 'very, very active' and keeps you on your toes and [REDACTED] also gets mad at the other kids. She said [REDACTED] interrupts and causes lots of problems with the other kids while they are trying to play. Tina said sometimes she has to tell the older children to wait to

play with Legos or other certain toys until [REDACTED] takes a nap.

I asked Tina if she ever noticed any bruises on [REDACTED]. She said yes, the girls had lots of sores and issues when Kaiol and Kimberly first got the girls back from foster care. She said they had some bruises, but mostly teeth issues and sores in their hair and the loss of hair from the sores. Tina said Kimberly struggled trying to get the sores taken care of and some of the other cuts and bruises, because the girls would pick at them and peel off the scabs.

She said Kimberly had a hard time with the girls changing their diet from fast food and candy to home cooked meals.

I asked Tina if she ever saw Kimberly discipline the children. She said yes. She said Kimberly just raised her voice slightly making it sound more stern and tells the girls no, or don't do that. Then she explains to them why they should not do what they were doing. I asked her if she ever saw or heard Kimberly say she had to spank the girls. Tina said no, she had not.

I thanked Tina for her time and offered to answer any questions she had. She said she only had a question about how long Kimberly would have to be separated from the kids. I told her that was not up to me and that CPS would have to answer that question for her. After that I ended the phone call.

Nothing further.

La Plata County Sheriff's Office

Supplement

S18-20921-7; Inv. L. Harrington

Silencia Bitsilly, the biological mother to [REDACTED] had requested an update on the status of the case. I called and spoke to her on 11/06/2018 at 1015 hours.

Bitsilly wanted to know about what was going on, and where we were at with the case. She asked questions about the broken rib that was discovered during the autopsy. I explained to her the Dr. Arnall believed it to be an old injury.

She wanted to know what questions were asked of Kimberly. I told her that Kimberly had been interviewed many times and at this point the investigation is still on going. I told her there was not much else to tell her at this point except that we are waiting on the autopsy report to come back and then we would meet with all the medical team in Denver, the forensic pathologist, and the district attorneys to determine where to go from there.

Bitsilly stressed her concerns that the case wasn't going to go anywhere, and she was upset that Kimberly did not apologize to her about keeping her kids safe, and that people keep saying sorry to Kimberly and not her and she is the biological mother of the children.

Bitsilly ended the phone call and hung up.

Evidence Log

On Tuesday, 10/16/18, Dispatch called me and requested I contact Sgt. R. Paige in reference to an earlier incident. I contacted Sgt. page via phone, and learned medical incident occurred earlier involving a four-year-old female child. I was informed the incident occurred at 30365 Highway 160, #8, Durango, La Plata County, Colorado. I further learned the child, later identified as [REDACTED] was currently at the Emergency Department at Mercy Regional Medical Center (MRMC), being treated by medical staff.

I arrived atMRMC at approximately 2019 hours.

Upon arrival, I met with Deputy P. Backer, who was already on scene. Deputy Backer informed me MRMC medical staff stated they were preparing [REDACTED] for airlift to Children's Hospital located in Aurora, Colorado, as she had sustained serious injuries which were causing pressure to [REDACTED] brain. It was unknown, at the time, what was causing the pressure.

I was informed [REDACTED] father, later identified as Kaiol Begay, [REDACTED] and [REDACTED] step mother, later identified as Kimberly Joe, [REDACTED], were present in the treatment room with [REDACTED]. I spoke with both for a short time, and primarily asked Kimberly questions as she was present during the incident with [REDACTED] whereas Kaiol was reported to have been at work.

While speaking with Kimberly and Kaiol I activated a digital recorder and recorded the conversation. This recording was later copied to CD and submitted as evidence by me.

I asked Kimberly to tell me what happened. Kimberly told me that earlier in the afternoon, around 1600 hours, [REDACTED] pooped her clothes. Kimberly said she put [REDACTED] into the tub to clean the poop off. Kimberly said [REDACTED] older sister, [REDACTED] got into the shower with [REDACTED]. Kimberly said she went outside to take the messy clothes to the trash can. She said she went back inside, checked on the girls, and got them out of the shower. She said she got the girls dressed and braided [REDACTED] hair.

She said the girls went out and played afterward. She said around 1740 to 1800 hours, [REDACTED] complained her head hurt. Kimberly said she made [REDACTED] a sandwich which [REDACTED] ate. She said [REDACTED] went into the living room to sit down. She said [REDACTED] complained she was cold, so she got [REDACTED] a blanket. She said a short time later, [REDACTED] began breathing strangely and making a humming sound. She said [REDACTED] was not behaving like herself and she was not responsive. Kimberly said, "That's when we called". Her next statements were descriptive of when law enforcement and medics arrived.

I confirmed with Kaiol that he was not present during this incident. Kaiol said he was at work when the incident occurred. He said he was contacted by Kimberly

and rushed home.

I asked Kimberly if she'd be willing to speak with me further, a littler later, because I needed to speak with MRMC medical staff. I told Kimberly she was not required to speak with me. See recorded interview for further.

I spoke with medical staff in the Emergency Department at MRMC. I was informed they had began performing some tests and images, however, they were unsure as to what the significant problems were with [REDACTED]. I was informed [REDACTED] had swelling or pressure in her brain, which was believed to be causing other complications. MRMC medical staff said [REDACTED] condition was critical and she was being prepared to be air transported to Children's Hospital in Aurora, Colorado. I further learned Kaiol was going to fly with [REDACTED] to Children's Hospital.

After Kaiol and [REDACTED] left, I spoke a second time with Kimberly. This conversation was also recorded using the digital recorder, and was later copied to CD and submitted as evidence by me.

During this conversation, Kimberly stated similar details as to what occurred. I did not observe any noteworthy deviations in her story. However, in this conversation, Kimberly told me she swatted [REDACTED] buttocks. I asked her how hard she swatted [REDACTED] and she demonstrated to me. My observation of her demonstration was that it was similar to a light swat and would not have caused significant harm.

Kimberly also added that she shook [REDACTED] when [REDACTED] was not responsive. I asked her to demonstrate how hard she shook and again Kimberly's demonstration did not appear to be overly aggressive. Prior to speaking with Kimberly, I again informed her she did not have to speak with me and could leave the conversation any time she desired.

I later asked Kimberly if she would be willing to allow [REDACTED] to be forensically interviewed by Department of Human Services (DHS) the following day. I also asked Kimberly if she would allow us to come to her home to inspect the home and take photographs. Kimberly agreed to both. See recorded interview for further.

On Wednesday, 10/17/18, after previously arranging a forensic interview with DHS, I contacted Kimberly via phone and confirmed she was agreeable to us coming to her home. Kimberly again agreed, and at approximately 1030 hours, Lt. J. Ezzell, Investigator P. Perryhill, and I arrived at the home, located at 30365 Highway 160, Durango, La Plata County, Colorado.

Upon arrival, I began taking photographs of the exterior of the residence, the garbage cans in front of the residence, including the contents of the garbage cans, and the entry way to the residence. Once inside, I photographed the interior rooms of the residence, including several photographs of the bathroom which Kimberly said [REDACTED] had fallen during the shower.

While taking photographs of the bathroom, I observed what appeared to be dried fecal matter, smeared on the sink counter top. The smear appeared to have been caused by fingers. I took photographs of this smear.

While inside the bathroom, I turned on the shower faucet water and ran it until it became warm. I adjusted the warm and cold water settings to be a typical shower warmth temperature, by feel. I flushed the toilet and observed the water very quickly became extremely hot. The water was too hot for me to

leave my hand exposed for more than just a brief moment, without risk of severely burning myself.

Additionally, while inside the residence, I began recording the conversation by using a digital recorder. A short time later, I left the residence to meet with Jessica Dalla-Cundiff, an employee of DHS and the case worker who was going to perform the interview with [REDACTED]. I left the recorder with Lt. Ezzell and to my knowledge, he continued recording after I left. The audio recording and photographs mentioned above were later copied to CD and submitted as evidence by me.

Upon arrival at DHS, located at 10 Burnett Ct., Durango, La Plata County, Colorado, I met with Jessica. We talked briefly about the case, and waited for Kimberly to arrive with [REDACTED]. Kimberly eventually arrived, and the interview between Jessica and [REDACTED] began at around 1240 hours on 10/17/18.

During the interview, I monitored via an adjoining room and via audio and video feed. I was not present inside the room, nor did I ask any questions directly to [REDACTED]. During the interview, I heard Jessica ask [REDACTED] several standard questions regarding family dynamics and other typical forensic interview questions.

Eventually, Jessica and [REDACTED] began talking about [REDACTED] and [REDACTED] taking a shower after [REDACTED] had pooped. [REDACTED] said [REDACTED] fell in the shower and hit her head on what appeared by description to be the shelving area affixed to the shower stall, and then on the bottom of the tub. Due to [REDACTED] young age, it appeared to me she was unable to give clear descriptions to Jessica and she appeared to be primarily fixated with [REDACTED] symptoms later on. [REDACTED] mentioned several times that [REDACTED] couldn't talk to her and she was making a humming noise.

During the interview, Jessica asked [REDACTED] if her mom was nice. [REDACTED] had previously referred to Kimberly as her mom. [REDACTED] said her mom was nice. Jessica asked [REDACTED] if she yelled or spanked her or [REDACTED] or if she got mad at [REDACTED] when [REDACTED] pooped her pants. [REDACTED] said "we" get mad at [REDACTED] when she poops, but said her mom doesn't get mad.

Jessica asked [REDACTED] what happened with her mom when she gets in trouble. [REDACTED] said her parents speak to her about what she did wrong. I did not observe any statements made by [REDACTED] which would cause suspicion or indicate that Kimberly is violent or lashes out with temper toward the children. This interview was recorded by DHS and later copied to CD, which was submitted as evidence by me.

I contacted Children's Hospital (Aurora, CO), and was connected with a hospital social worker identified as Teresa Colassi. Throughout the next few days, I maintained contact with Teresa and obtained updates as to [REDACTED] condition from Teresa.

On Saturday, 10/20/18, I was contacted by Children's Hospital and informed [REDACTED] family had made decision to discontinue the usage of life support equipment with [REDACTED]. It was expected [REDACTED] would succumb shortly afterward. I was notified around 1300 hours that [REDACTED] had passed away.

I spoke with La Plata County Coroner Jann Smith and informed her of the situation. Jann told me autopsy would be scheduled for Tuesday, 10/23/18.

On Tuesday, 10/23/18, at approximately 0900 hours, I arrived at Hood Mortuary, located at 1261 E. 3rd Avenue, Durango, La Plata County, Colorado, to attend the scheduled autopsy of [REDACTED]. This autopsy was conducted by Dr. Arnall. Also in

attendance were Lt. J. Ezzell, Inv. L. Harrington, Inv. P. Berryhill, and Coroner J. Smith.

During the autopsy, my primary role was to take photographs of the autopsy procedure as instructed by Dr. Arnall. These photographs were later copied to CD and submitted as evidence, with a copy also being made available to Dr. Arnall.

On Wednesday, 10/24/18, I attended a Child Protection Team meeting, via teleconference. This meeting was also attended by DHS employees Jessica Dalla-Cundiff, DHS supervisor Courtney Hightower, Lt. J. Ezzell, Investigator P. Berryhill, and Investigator L. Harrington.

In this teleconference meeting, I heard Dr. Andy Sirotnak, who identified himself as the primary physician responsible for treating [REDACTED] at Children's Hospital, say he believed the pattern of injuries observed on [REDACTED] body, were not consistent with the explanation being given by the parents, and he believed the injuries were non-accidental.

Status: Active

Nothing further.

-Property Log
-Consent to Search (Kaiol Begay)

On Wednesday, 10-17-18, at approximately 8:00 am, I learned of an incident which had occurred on the prior evening. Inv. McNeely had been called-out, regarding a suspicious call involving a child.

Lt. Ezzell explained that a young child, [REDACTED] / 4 YO, was transported to Mercy Medical Center, due to being unconscious (breathing at the scene) and had possibly sustained life-threatening injuries. Ezzell said that [REDACTED] possibly had head trauma / brain swelling, although no explanation for how the injuries occurred were known, except it was possible she fell in the shower.

Ezzell said [REDACTED] was life-flighted to Children's Hospital (Denver CO), and that she was in critical condition. Ezzell said that [REDACTED] had been in the care of her step-mother (Kimberly Joe) when the incident was reported, and that [REDACTED] Father (Kaiol Begay) was currently with [REDACTED] in the hospital.

The location of the incident had occurred at was 30365 Hwy 160, the Lilly Belle MHP, space 8.

Ezzell then requested my assistance, as we had planned on going to the above address to collect evidence and speak with Kimberly.

Once we arrived on scene, Kimberly willingly allowed Ezzell, McNeely, and I to enter her residence. Kimberly was talkative and spoke with us all, while McNeely photographed the residence.

During the conversation with Kimberly, she stated the following, which was most notable (paraphrased / audio recorded):

- [REDACTED] had pooped and peed herself in the afternoon
- [REDACTED] and her sister, [REDACTED] were told to get into the shower to clean up
- During this time, Kimberly was cleaning the house
- At some point, the washing machine had turned on, and possibly burned [REDACTED] when the water temp changed during the cycle
- [REDACTED] had fallen in the shower, although she did not see or hear this happen, as [REDACTED] had told her about this after the fact
- After the shower, [REDACTED] and [REDACTED] had gone into the backyard to play
- [REDACTED] again later told her that [REDACTED] had fallen on the slide (meaning a staircase leading from the deck, which they refer to it as)
- Her son, [REDACTED] / unknown last, can sometimes be rough with [REDACTED] as he had recently struck her in the head with large / heavy toys (plastic school bus and toddler gaming system)
- Prior to the incident, [REDACTED] did eat, [REDACTED] complained of a headache, and she gave [REDACTED] the recommended dose of Children's Ibuprofen
- [REDACTED] began having labored breathing, and [REDACTED] was the first to notice

During our conversation with Kimberly, Ezzell collected a bag of clothing, which were the clothes that [REDACTED] had soiled and some other items.

With Kimberly's consent, Ezzell searched through her cell phone, and I took various photos of her screen - regarding phone calls, times, and texts between her and Kaiol.

For further information, please review the audio recording.

Once back at the Office, it was decided that I would travel to Children's Hospital, so that I could conduct interviews, take photographs, obtain medical records, and speak with any of the doctors involved in caring for [REDACTED]

I arrived in Denver later that night.

On Thursday, 10-18-18, I met with Kaiol, who was sitting in [REDACTED] medical room.

I asked Kaiol how he was doing and he explained that he had been up all night, and literally did not sleep. Kaiol said that he was hopeful that he would receive good news on this date, as [REDACTED] had opened her eyes earlier.

At this time, I met [REDACTED] biological mother (Salencia Bitsilly) and a woman who is referred to as [REDACTED] grandmother (Yvonna Scott).

Note: Salencia's mother passed away when she was a child, and Yvonna essentially raised Salencia, and later cared for both [REDACTED]

I advised Kaiol, Salencia, and Yvonna that I was going to take photographs of [REDACTED]

I saw that [REDACTED] was lying in a bed and she had numerous medical apparatuses connected to her body. [REDACTED] did not appear to be coherent, and more less looked lifeless. [REDACTED] body was motionless and her eyes would open but rolled upward.

I began taking photographs of [REDACTED] and then spoke with the nurses in the room (Nicolette Kelley and Maddison Fritz), about getting better photographs of her injuries.

I was advised that because of [REDACTED] fragile and delicate state, she could not be moved. I also asked if the blanket that was covering [REDACTED] could be pulled down, so that I could at least take some photographs of her injuries (without moving her), and I was told no.

I was told that [REDACTED] was breathing on her own, although not responsive to any stimuli, and most likely had a severe brain injury, which was causing it to swell. I was finally told that there was no medical explanation for why [REDACTED] brain was swelling and what might have caused it.

I asked Fritz if she and the other nurses / doctors caring for [REDACTED] believed that [REDACTED] medical state was non-accidental / a product of child abuse, and she stated yes (based on what was observed).

Once I finished taking photographs, I told Kaiol, Salencia, and Yvonna that I'd like to interview each of them, and they all agreed to do so when it was convenient.

I first spoke with Salencia, and the most notable statements made were the following (paraphrased / audio recorded - 41 minutes 10 seconds):

-After she spoke with Kaiol and Kimberly, things just don't add up after she

found out about [REDACTED]

-This is what she was worried about, Kimberly being the one who would be watching the kids

-She spoke with Kaiol and Kimberly about them getting custody of the children, and Kimberly told her that she would take good care of the children

-The moment Kaiol got custody of the children, he told Salencia that the children did not need her anymore and that she should just stay away

-She texted Kimberly and asked her why they both were ignoring her texts, regarding the children

-She knows that she personally made a mistake by drinking and driving with her children in the car, although they were never in an accident and nobody was hurt

-She believes Kimberly and Kyle are blaming [REDACTED] condition on something in the past when the children were in her custody

-She asked Kimberly why she was not contacted immediately when [REDACTED] was injured

-She told Kaiol that Kimberly wouldn't be able to take care of all the children, as she was pregnant

-She told Kaiol that he doesn't even know who Kimberly is since he just jumped into the relationship

-She and Kaiol split up in June of 2016 and he told her that he had already met somebody and the other girl was pregnant

- What doesn't make sense to her is that [REDACTED] has burns on her fingers and she was told that she burned her fingers by putting them in hot soup

-She was also aware that [REDACTED] has bruises on her legs, and Kaiol told the nurses that sometimes she will act out and bang her legs on the floor

-There are bruises on her back but Kaiol said that she might have fallen on the back deck

-Kimberly took away [REDACTED] security blanket, because she was at that age and she didn't need it

-How would Kimberly know what is best for her kids

-It seems like Kimberly always had a problem with Kaiol seeing his kids

-She never gave away her rights to her children

-There are no legal agreements to say that Kaiol has full custody

-The kids were staying with her mother-in-law (Yvonna), and she would always allow her to come and see her kids

-When she got into a vehicle accident nothing happened to the children, no injuries or it would have been reported

-The fact that Kaiol and Kimberly kept her kids away from her, this raised a red flag

-She said that she was very concerned that Kimberly was watching the children, and she never even told her about the incident with [REDACTED]

-How does she know that Kimberly is not mistreating [REDACTED]

-She never hurt her kids in a vehicle accident or it would be on record with the police

-Kaiol will spank the children, but he wouldn't hurt them

-Kimberly was all alone with the children while Kaiol was away working for many hours

-Kimberly said [REDACTED] has been pooping and peeing on himself, and that she fell, then complaining that her head was hurting

-She went unconscious, that doesn't make any sense

-If she hurt my baby... God (crying)

-Something happened and I don't want them to get away with it

-Kaiol wants to blame everyone else

-Kaiol should have let her see and talk to the children

-Kaiol never mentioned that she had bruises, or that she fell

-These are fresh bruises, the nurse showed her

-The bruises are on her legs, thighs, hands, back, and head

-She can't understand why the officer who performed CPR would do that
-McNeely said that [REDACTED] wasn't present when 'it' happened, but then he mentioned that [REDACTED] and [REDACTED] were in the shower together
-This doesn't make any sense
-Kaiol told the nurse a happy story and then she gets hurt, she thinks that Kaiol is lying
-Kaiol tried to paint a perfect picture and now she's here
-All these bruises happened from a fall and a tantrum
-The last time I saw a the kids was last Mother's day
-[REDACTED] was healthy, no major falls, she didn't bruise easily
-[REDACTED] does not have a history of falling, no breathing issues, no snoring issues
-Kaiol texted me and told me about the incident
-Kaiol told her to call him, and he said [REDACTED] was in the hospital and unresponsive
-He said she slipped in the shower and that was it
-He later said he was a work, and Kimberly told him to call her
-He said that his boss' wife went to the house, and she and Kimberly were trying to decide on what to do, but how long did that take
-From the time [REDACTED] head hurt, what did Kimberly do
-When did Kimberly start to do something about it
-I know Kaiol's scared
-He knows that people are looking at him, because he is being questioned
-She thinks that Kaiol is believing what Kimberly is telling him, because he doesn't want to believe that she would do this
-He told her that Kimberly would get jealous when Kaiol would give attention to his daughters and not to her or their son
-Kaiol would tell Kimberly that he was trying to give attention to his daughters
-She has never personally seen Kimberly lose her temper with any of the kids
-This does not sound like an accident
-No way [REDACTED] slipped in the tub and now she has a concussion
-All the bruises look fresh
-There is no way a cup of noodles would cause the burns that she has on her fingers
-[REDACTED] has never dipped her fingers in something hot, she knows what hot means
-She knows this to be true, because [REDACTED] is very aware and very smart
-The bruises just don't make any sense
-The nurse told her that they didn't believe that the injuries were from a fall
-Her main concern is that why Kaiol kept the kids away from her, why did he tell her about [REDACTED] at the last minute, and why does she have all these bruises on her
-Kaiol is a good person and works hard, but he wouldn't believe anything that his daughters would tell him
-[REDACTED] mentioned to Yvonna that Kimberly was mean to them, and wouldn't let them play with her son's toys
-Why would [REDACTED] lie about this
-When the girls would go with Kaiol, [REDACTED] would unpack her toys before leaving because she knew that Kimberly would just take them away
-Why does Kimberly think it's ok to judge her and agree that it was best that the kids had nothing to do with her
-When she talked to Kimberly on the prior day, Kimberly seemed scared
-She tried to speak with [REDACTED] over Face-Time, and it seemed like Kimberly was coaching her
-The more she would ask [REDACTED] questions, [REDACTED] would pause and say she was scared

I then spoke with Yvonna and the most notable statements made were the following (paraphrased / audio recorded - 48 minutes 12 seconds):

XXXX

- The girls have always been at her house since they were babies
- She would go and see the girls 2 times a month, when they were taken away
- She would give the girls gifts
- After going through court, she finally got the kids back
- She had the girls for 10 months, she put them in school, got them medical exams
- Salencia would come and visit them, and the girls would be so happy, they wanted her to hold them
- Salencia would call, and she would say a prayer with them over the phone
- Kaiol would come and visit and he would take them to the mall
- She thinks it was in May when Kaiol got the kids back
- During that time, Kaiol and Kimberly got into an argument and she dumped all his clothes off at his uncle's house
- Kaiol and Kimberly split up for about 2 months, then they found a trailer in Durango
- She told Kaiol to listen to the girls, she doesn't trust Kimberly
- She would only allow Kaiol and Salencia to come to her house
- A lot things aren't adding up
- What I've seen and what the girls have told me, I am pointing the finger at Kimberly
- [REDACTED] had a birthday once and Kaiol and Kimberly took the girls to Kimberly's parent's house
- [REDACTED] later told her that Kimberly's family was mean to her and they never sang happy birthday to her
- [REDACTED] had a blue fleece blanket and it was her security blanket
- Kimberly took the blanket away and told her that the blanket was lost
- [REDACTED] told her later that they eventually gave the blanket back to [REDACTED]
- Kaiol told her that Kimberly did take toys away from the girls
- She always allowed Kaiol and Salencia to call and talk to the girls
- She had given the girls a brush, and Kimberly took that away from them too
- [REDACTED] unpacked her toys from a bag before going to Kaiol and Kimberly's home, because Kimberly would take the toys away
- Things were being taken away from the girls, they weren't being taught to write, the girls have chores around the house and can't eat until the chores are done
- Kaiol just brushes it off
- Kaiol isn't always around
- There was another incident with visitation, and Kaiol would go to see the girls, but the boys would get in the way
- Kaiol would just say the boys are jealous of the girls
- The visitation was only to be a bond between Kaiol and the girls
- There are little stories like these that [REDACTED] would talk about
- Kaiol said that Kimberly wanted to take the girls away and not allow them to have any visitation
- There was a time [REDACTED] asked for her to take her home, but Kaiol had the custody order
- The girls thought that they were going for a visit, but they never came back to her
- The last time she saw the girls was in August
- She saw the girls at Wal-Mart one time and the girls both had their heads down, they were following Kimberly and she was yelling at them to hurry up
- Kimberly made it clear that she wanted to cut off all ties between the girls and her
- Kaiol told her that there was just air in [REDACTED] head, not fluid, but the

nurses told her differently

- [REDACTED] has a scar on her eye, she's never seen that scar before
- [REDACTED] has black spots all over her lips, and Kaiol said it was Hand Foot and Mouth Disease
- [REDACTED] has burn marks all over her fingers
- Kaiol said [REDACTED] put her hands in hot noodles
- [REDACTED] knows not to touch hot things
- Why would a little girl put both hands in hot noodles
- Kaiol said he wasn't at the house when [REDACTED] got burned
- She asked Kaiol if Kimberly was jealous of the girls and he just laughed, he never gave an answer
- Kaiol said he has full custody and Salencia has no rights
- She and Salencia are related through blood, and Salencia eventually began living with her, since her mother passed away
- The girls are her grandbabies no matter what
- She was concerned that Kimberly would not be able to give the girls attention, since she has other kids
- She is hearing different stories
- Why did it take so long to call 911
- Kaiol did not notify Salencia until the next day

I then spoke with Dr. Gary Morris (Neurologist) and Theresa Cassi (Social Worker for Children's Hospital) the most notable statements made were the following (paraphrased / audio recorded - 12 minutes):

- Nothing makes sense, she is covered with bruises
- She has grab marks, marks like she was hit with something
- [REDACTED] was physically abused
- The story of her hitting her head in the the presence of the sister doesn't explain any of this
- She has a more severe head injury than what has been explained
- Something else might have happened before [REDACTED] was put into the shower
- The stepmother might know something more than what she is saying
- Her brain injury is more severe than what would be expected, it doesn't make any sense
- Delay in care is relevant
- This could play into her physical state
- She does have a brain injury, but it's not a massive one
- We are concerned, we just don't know how the brain injury happened
- His instinct is that someone really just lost it with her
- She is covered with marks, and they only have dad's side of the story
- Kaiol knew about the marks on her knees
- The burns aren't a concern, kids do that (fingers in hot food)
- Kaiol was unaware of [REDACTED] falling on the staircase
- She was very unstable yesterday, too unstable to conduct a physical
- It looks like she was manhandled
- She doesn't have a skull fracture, as far as they can tell

I then spoke with Yvonna again and the most notable statements made were the following (paraphrased / audio recorded - 30 minutes 1 second):

- The stories have changed, Kaiol told her that Kimberly was present while the girls were taking a shower, but then she got busy, leaving the girls alone
- You aren't supposed to leave a child, you have to watch them
- Kaiol said [REDACTED] was making sleeping sounds
- Why couldn't Kimberly and the boss' wife call 911 right away
- It was the boss' wife who suggested they call 911

-The police did the CPR
-The story isn't coming out right
-Kaiol doesn't want the girls associated with anyone related to Salencia
-Her concern was a young mother (Kimberly) being able to watch 4 kids
-Kaiol cut off all ties with her and Salencia
-Kaiol said that Kimberly made those rules
-She knows that kids fall, but [REDACTED] has big bruises all over her body
-Kaiol said [REDACTED] bangs her legs together, explaining why she has bruises on her knees
-Kaiol said [REDACTED] head injury was from years ago (reference Salencia's traffic accident)
-She would suggest taking [REDACTED] away, so if she's safe, she will talk
-She feels there is abuse going on, look at everything
-This happened in Kimberly's care, she should have known
-[REDACTED] had no breathing problems when she cared for her, her breathing was not ever labored
-[REDACTED] never had a history of falling down
-[REDACTED] never mentioned having headaches
-The only bruise she ever saw on [REDACTED] was on her back from riding a Hot Wheel toy
-August 13th was the last time she saw the girls
-Kaiol told her that she was not allowed to see the girls
-She knows this isn't an accident
-Something happened
-Talk to [REDACTED] again, she will if she feels safe
-I don't know what Kaiol is thinking, he's scared

I then began working on acquiring [REDACTED] medical records, although due to the computer I was using at the library, it would not print the letterhead, which was needed for the request.

After the above, I wanted to interview Kaiol, although he was sleeping. My intent was to interview Kaiol, once I had the photographs of [REDACTED] injuries / other possible medical explanations for her condition.

While I was standing outside of [REDACTED] room, Dr. Megan Barry (Neurologist) approached Kaiol and Salencia, and asked to speak with them privately, in order to give them the update on [REDACTED] condition. Kaiol then asked me if I could be present, and I told him that it would be beneficial if I sat in on the update from Dr. Barry and 4 other medical personnel.

-The MRI shows significant injury to [REDACTED] brain
-The whole brain is affected
-The brain injury looks like it was caused by a lack of oxygen
-The damage is permanent
-The injury looks acute, like it just happened
-The injury happened within the last couple of days
-It's possible that [REDACTED] will never wake up
-[REDACTED] brain has been swelling over the last couple of days
-If [REDACTED] does survive, she will be very neurologically injured

After the above, both Kaiol and Salencia were very emotional, and I did not have any further interaction with them.

On Friday, 10-19-18, I spoke with Tammy Romero in Records at Children's Hospital.

After submitting a request for [REDACTED] medical records, she emailed me the information, which was then forwarded to Inv. Harrington, who shared the documents with other investigative staff.

I then met with Kelley and Fritz in [REDACTED] room, who advised that they had to move her, and if I wanted to take some photographs of her injuries, this would be the time.

I then took as many photos as I could.

Note: Please view these photos for more information.

Shortly thereafter, I met with Kaiol and Salencia, and again Dr. Barry, along with Dr. Morris, outside of [REDACTED] room.

During the conversation, Dr. Barry explained that [REDACTED] had very little brain activity, and that she would never recover from the state that she was in. Dr. Barry said that after examining the MRI more carefully, it appeared that [REDACTED] had retinal hemorrhaging, which is indicative of head trauma. Dr. Barry then encouraged Kaiol and Salencia to take [REDACTED] off of life-support as she would never have quality-of-life, being that she would never be able to speak, hear, see, or move. Dr. Barry told Kaiol and Salencia that they had a very hard decision to make, and allowed them to be alone.

Again, I had planned on interviewing Kaiol, although due to his emotional state, I did not.

I then met with Tiffany Glick (Social Worker for Children's Hospital).

Glick explained that multiple doctors worked on provided care for [REDACTED] and that Dr. Sirotnak was head of the Child Protection Team. Glick said that if anyone could provide me with information, pertaining to [REDACTED] injuries or overall condition, it would be him.

I asked Glick if she could help arrange for me to meet with Sirotnak, and she said that she would.

Glick later advised that Sirotnak was busy with another child, and the only thing that he mentioned about [REDACTED] was that there was definitely head trauma and this was a case of child abuse.

After the above, I updated Ezzell, and we both agreed that there was nothing more for me to do, and thus, I left Denver and traveled back to Durango.

On Tuesday, 10-23-18, at approximately 9:00 am, I attended [REDACTED] autopsy (conducted by Dr. Arnall), and accompanied with Ezzell, McNeely, and Harrington.

Others who were present included the Coroner, Jann Smith and Deputy Coroner George Liese.

Throughout the autopsy, I took various photographs for our case file, and McNeely took photographs for Arnall.

After the autopsy was completed Arnall said that he could not clearly state or explain why [REDACTED] had passed away, and that he would have to examine the tissue / organ / bone samples he had collected.

The autopsy report is currently pending, and should be completed within 1-2 months.

On Wednesday, 10-24-18, I attended an online meeting between CPS and medical personnel at Children's Hospital. McNeely, CPS case worker Courtney Hightower, and CPS case worker Jessica Dalla-Cundiff led the correspondence between those attending from Children's Hospital.

Please refer to McNeely's report for further information on this aspect of the investigation.

After the above meeting concluded, Harrington and I met with Dalla-Cundiff and Kimberly and Kaiol.

Dalla-Cundiff updated Kimberly and Kaiol on what the findings and opinions were of the doctors at Children's Hospital, along with discussing the current safety-plan, which was already in place.

During the above conversation, both Kimberly and Kaiol made statements about incident, and most notable were as follows (paraphrased / audio recorded - 1 hour and 4 minutes):

-Kaiol) [REDACTED] is a kid, she falls sometimes, she is active
-Kaiol) His oldest daughter would have told him if there was abuse
-Kaiol) His oldest daughter would tell him everything, he would know if there was something going on
-Kimberly) She doesn't want to blame her son, but he would hit [REDACTED] with toys, and he would bite her
-Kimberly) When she noticed that [REDACTED] was breathing weird, could that have been what caused her to have lack of oxygen (question to Dalla-Cundiff)
-Kaiol) [REDACTED] told him that [REDACTED] had breathing issues in the past

On Thursday, 10-25-18, Harrington and I met with Kimberly and Kaiol at the Investigations Division, reference solely interviewing Kimberly.

Before the interview took place, both Kimberly and Kaiol wanted to remain together during the interview.

Kimberly and Kaiol were both advised that neither were under arrest, they did not have to speak with us, and that they were free to leave at any time. They said that they understood, and wanted to cooperate with the investigation.

Please refer to Harrington's report, as he has since documented / outlined what Kimberly and Kaiol stated. This interview was audio recorded.

Note (not audio recorded): At one point, Kaiol exited the interview, due to the emotions he was experiencing. I met with Kaiol outside of the interview room and noticed that Kaiol was crying. I asked Kaiol if he believed or suspected that Kimberly had anything to do with [REDACTED] injuries / death. Kaiol expressed that he did not. I asked Kaiol if he suspected that Kimberly was responsible for the above, would he tell me - and he stated yes.

11/08/2018 I reviewed the forensic interview of [REDACTED]. During which in the beginning of the interview Jessica DallaCundiff asked Kenya what happened to [REDACTED]. [REDACTED] said her grandfather told her to tell what happened to her sister. [REDACTED] started talking and said "because she was running outside and she said her head hurts so that is what happened to her." [REDACTED] ability to explain things was hard to decipher and unclear. [REDACTED] talks about [REDACTED] head hurting possibly because of her foster brother [REDACTED]. However [REDACTED] and [REDACTED] have for the past two months been in the care of Kimberly Joe and Kaiol Begay.

1) During the interview with Kimberly on 10/25/2018, she said [REDACTED] told her about [REDACTED] falling on the steps outside, telling Kimberly she "slide" down the steps. Kimberly said she heard one of the kids crying outside. She said this was after the shower the girls took. She said when she heard the crying, she went and opened the door and said she heard someone crying and for all of them to come inside. Afterwards Kimberly said in that [REDACTED] told her again that her head was hurting. Kimberly said she gave [REDACTED] 5ml of children's Ibuprofen, and then told her to go sit on the couch and relax since she was not feeling good.

2) At this point there is supporting evidence indicating [REDACTED] had sustained two falls at two separate times. The later fall was after the shower and not too long before [REDACTED] noticed [REDACTED] breathing weird on the couch. The information that has been gathered suggested [REDACTED] fell down the stairs off the porch located at the back of the house. At the bottom of the steps are concrete pavers.

3) Kimberly tells Investigator Berryhill and me that [REDACTED] did not have the abrasion on her back when she showered her earlier. She did say that she noticed something strange on [REDACTED] back when she rubbed [REDACTED] back after [REDACTED] said [REDACTED] was breathing weird.

4) This also helps explain the fall down the steps. It is very possible that [REDACTED] fell and slid down the steps, which could cause the injury to her head and also the injuries to her back. [REDACTED] again mentions [REDACTED] being outside and her head hurting.

5) Kimberly also explained to us what [REDACTED] told her the night after [REDACTED] was flown to Children's hospital. She said [REDACTED] mentioned [REDACTED] breathing the same way before and her head hurting. Kimberly said, according to [REDACTED] this happened while they were in foster care.

6) Kimberly has been cooperative and has not at any point has she hesitated to answer any questions asked of her.

7) The investigation is still on going at this point, and still waiting on

the results of the autopsy. These are the known facts at this time.

On 11-16-18 at approximately 12:30 pm, I spoke with Salencia.

Salencia stated that Kimberly had spoken to another woman regarding the incident involving [REDACTED]. Salencia said that she did not know the woman's name or what was said, but wondered if Kimberly provided information that was not otherwise disclosed. Salencia finally mentioned that this unknown woman works in Farmington at a business known as Rathpeon.

I told Salencia that we would follow-up on the matter, and make contact with the above-mentioned female and determine what might have been disclosed by Kimberly.

End of report.

Evidence log

On 12/11/2018 at approximately 1000 hours, Dr. Arnall continued his investigation in the cause of death of [REDACTED]. During the prior autopsy he removed [REDACTED] brain and stored it in formaldehyde for a time period in which he knew would stabilize it. He then cut it into sections. He said from his initial observations there appeared to be nothing he could say caused her death.

He said he would send her brain and other samples taken to the forensic pathologist at Children's Hospital for further review.

I took photographs and they have been submitted to evidence.

Continued Autopsy

V: [REDACTED]

On 01/15/2019 at approximately 1100 hours, I attended the continued autopsy of [REDACTED] performed by Dr. Arnall at Hood Mortuary in Durango, Colorado.

Dr. Arnall sectioned the spine to look for evidence of trauma. After finishing he said he needed to analyze the numerous samples he took under a microscope. He also said once he had completed his analysis, he will be sending everything he has collected to Children's Hospital in Denver for their Forensic Pathologist to review.

Follow Up

On 03/20/2019 at 1300, I spoke to Salencia Bitsilly and updated her on what we know at this point. I was able to answer a lot of her questions and concerns. I told her as of right now the facts support that [REDACTED] death was an accident.

I told her we still need the ruling from the Coroner and Forensic Pathologist before we can take the next steps to either close the case or continue working on the investigations.

She was receptive and understanding. I told her I would update her once I get the ruling from the Coroner.

Amended Autopsy Report

I spoke to Dr. Arnall on 08/01/2019 about the autopsy report I received for [REDACTED]
[REDACTED] I asked him about the documented fractured rib that was found during the autopsy, and that he commented that it was older and that it did not state that in his report. He said he would amend the report, and have it sent back to me.

I also asked that he get the contact information of the chairman of pathology at Children's Hospital, and also the neurosurgeon he had review the autopsy of Begay.

Arnall said he would get me that information.

On 08/07/2019 I received the amended Autopsy report from Dr. Arnall. IN the amended report there is a addendum comment and it states:

[REDACTED]

The amended report is attached in Spillman.

Supplement

S18-20921-25: Inv. Cody Rieb

1.) I was asked to call the mother of [REDACTED] (Salencia) in regards to additional information she had in the death of her daughter.

2.) Salencia was called via phone. Salencia told me she had spoken with [REDACTED] father recently and he said he had lied about what happened to [REDACTED]. I inquired further as I was the first Deputy on scene and remembered he was at work when the incident happened. I also remembered his presence on scene. Nothing stood out to me as someone who was hiding information.

3.) Salencia explained to me that he lied for his girlfriend Kimberly, who was watching the children. Salencia said [REDACTED] father was intoxicated at the time he told her, and that they were in a friendship type relationship currently. Salencia expressed her dislike for Kimberly as well. I asked Salencia if she had reviewed the investigative reports or looked into the incident from what Investigators had done. Salencia stated she had not done so. We continued to talk further and by the end of the conversation, Salencia stated she wanted to look into the case reports and think about it more before a re opening of the case commenced into the claim made by [REDACTED] father.

4.) As of 08/04/2021, Salencia has not re contacted the Sheriff's Office in this case. The case will be placed in a closed status.

Unattended Death - New Information

Victim:

[REDACTED]

Involved:

- Salencia Thompson, [REDACTED] biological mother of [REDACTED]
- Kaiol Begay, [REDACTED] father of child of [REDACTED]
- Kimberly Joe, [REDACTED] Ex-Step-Mother
- Cammay Smallcanyon, [REDACTED], Kaiol's current girlfriend
- [REDACTED], daughter of Salencia and Kaiol

On 10/18/2023, Lieutenant Ezzell advised Department of Human Services, Child Welfare Supervisor, Jessica Dalla-Cundiff emailed him regarding the death of [REDACTED] S18-20921. Lt. Ezzell forwarded me the following email from Dalla- Cundiff:

From: Jessica DallaCundiff [REDACTED]
Sent: Wednesday, October 18, 2023 12:23 PM
To: Jim Ezzell [REDACTED]
Subject: [REDACTED] case

"Good afternoon - [REDACTED] died under suspicious circumstances in 2018. The alleged perpetrators were biological father Kaiol Begay, [REDACTED] and Kaiol's significant other Kimberly Joe [REDACTED] You, Harrington and I investigated this in 2018 and it was determined to be not enough information to prosecute.

[REDACTED] biological mother, Salencia Le, [REDACTED] called me today and said Kaiol and Kimberly have separated and are now making accusations that the other one is responsible for the death of [REDACTED] (for example: Kaiol said Kimberly suffocated [REDACTED] with a pillow). Salencia stated she has a current audio recording of a conversation she had with Kimberly. -Jessica Dalla-Cundiff | Child Welfare Supervisor"

On 10/19/2023, I contacted [REDACTED] mother, Salencia Thompson, previously Salencia Bitsill, by phone, [REDACTED]

Salencia advised the following:

-Kimberly Joe, [REDACTED] Step-mom, came to Salencia in January of 2023, advising Kaiol Begay was abusing [REDACTED] (biological daughter of Salencia and Kaiol), as well as abusing Kimberly's son, unknown name.

-Salencia stated the day [REDACTED] died, Kaiol was drunk at work. Prior to [REDACTED] death, Kaiol knew [REDACTED] had a broken rib. Kaiol liked to blame the broken rib on Salencia because Salencia had previously gotten into a car accident with [REDACTED] in the car.

- Salencia is currently in a custody battle with Kaiol to get full custody of daughter, [REDACTED]

- Salencia hasn't seen [REDACTED] since September of 2022.

-On December 29, 2022, Salencia stated that Kaiol came to her house and started crying, saying he was really sorry and he was trying to protect Kimberly. During

this conversation, Kaiol was very intoxicated.

- Salencia has a recorded conversation with Kaiol's current girlfriend, Cammay Smallcanyon. During the conversation, Cammay tells Salencia that Kim killed her daughter. Salencia recorded the conversation.

- About a year after [REDACTED] death, Kaiol told Salencia that Kim put a pillow over [REDACTED] face and suffocated her.

-Since Kim and Kaiol broke up, they continuously point fingers at one another.

Salencia provided me with the following possible contact information for involved parties:

-Cammay Sara Small Canyon (previous last name of Beinoh or Benioh)

[REDACTED]

Lives in Montezuma Creek, UT

Unknown home address- Cammay and Kaiol live together

Mailing address: [REDACTED]

Possible phone number [REDACTED] changes phone numbers often

-Kaiol Begay

Possible phone number [REDACTED] or [REDACTED] - Changes phone number often

-Kimberly Joe

Lives in Shiprock, NM

Works at NECA

Phone number [REDACTED]

The conversation with Salencia was recorded on the Callyo app. Recording conversation was downloaded and saved.

Salencia sent me an email containing the recording of her phone call with Cammay. The following are notes from that recording:

-Cammay called Salencia late at night.

-Cammay sounded intoxicated- was slurring her speech, repeating herself and was thick tongued.

-Cammay lost her virginity to Salencia's current husband. Cammay did not give consent when she had sex with Salencia's current husband.

-Cammay is upset with Salencia because Salencia is friends with Kim (Kimberly Joe).

-Cammay states several times something to the effect of, why are you friends with Kim, she killed your daughter.

-Cammay does not elaborate on the death of [REDACTED] or how Kim "killed" her daughter.

-Cammay continuously asked why Salencia takes Kim's side.

-During the conversation, Cammay was argumentative and told Salencia that [REDACTED] doesn't want to talk to Salencia or have anything to do with her.

-Cammay claimed to be a better mom than Salencia.

-Kaiol told Cammay that Salencia drank and did drugs while Salencia was pregnant.

-Cammay seemed to want to get a rise out of Salencia during the entirety of the conversation.

End of conversation notes. The recording was saved and downloaded onto a compact disc.

After listening to the conversation between Kimberly and Salencia, I found nothing of evidentiary value relating to the death of [REDACTED]

END REPORT.

Unattended Death- New Information

Victim:

[REDACTED]

Involved:

- Salencia Thompson, [REDACTED] biological mother of [REDACTED]
- Kaiol Begay, [REDACTED] father of child of [REDACTED]
- Kimberly Joe, [REDACTED] Ex-Step-Mother
- Cammay Smallcanyon, [REDACTED] Kaiol's current girlfriend
- [REDACTED] daughter of Salencia and Kaiol

On 10/19/2023, at 2003 hours, Salencia Thompson sent me two video recordings. On 10/23/2023, I attempted to load the videos but the link Salencia sent did not work. I contacted Salencia and advised her the album was empty. At 1051 hours, Salencia sent three links to my work email.

The following is a phone conversation, believed to be sometime in May of 2023, between Kimberly Joe and Salencia Thompson. Salencia video recorded the conversation. The conversation is broken in two videos.

- Video #1, labeled VID_20230521_102431, length 11:37 minutes.
- Video #2, labeled VID_20230521_101050, length 12:44 minutes.

On 10/23/2023, I listened to the conversation. I took notes during parts of the conversation which weren't significant. A transcription of the conversation began when Kimberly and Salencia discussed [REDACTED]

VIDEO #1: (11.37-minute video)

NOTES:

- When Kaiol goes to the barber, people have told Kimberly that they haven't seen [REDACTED] with Kaiol.
- Kimberly believes Salencia has "worried justification" to look into new girlfriend life.
- Kaiol lives with his new girlfriend, Cammay.
- Cammay's teenage son is likely being left home alone with [REDACTED]
- At some point, [REDACTED] got her period.
- Cammay has been spotted buying alcohol but told Salencia she doesn't drink.
- Kimberly is frustrated with Kaiol.
- [REDACTED] told Kaiol that Traven, (Salencia's current husband) touched her inappropriately- [REDACTED] never told Kimberly she was touched. Kimberly doesn't think anything happened. Kimberly knows when [REDACTED] is lying.
- Kaiol doesn't want Salencia talking to [REDACTED]-wanted Kimberly to call the cops because Salencia talked to [REDACTED]
- Kaiol likes to play the victim and wants attention.

TRANSCRIPTION:

Transcription begins at 8:34 minutes into video

(S- Salencia) (K- Kimberly)

S- I just don't understand why he keeps pushing to everybody that you know, you're the one that did that to [REDACTED] Ya know, I was at work and she was at home, and that's why Cammay was like, you're just taking her side, she's the one that killed your daughter and all this.

K- He was the one and that's where the officers did their investigation, they ask him, how come you didn't you take her to the hospital when they were telling you to. They all knew she was sick and they told you and your response was give her Tylenol.

S- So he knew what was going with her?

K- Hmm. He knew that she was sick. My mom and dad had to get after him to take her in. His excuse was that he had to work and he couldn't miss work because he had all these bills to pay. The whole time, and the time I was stuck on bed rest because I had my own complication because of my pregnancy. I was told not to do this and not to do that, yet. And even that night when she was crying, he wouldn't even get up, even with as hard as I was hitting him, he wouldn't get up to check on them. He wouldn't do that. There was just so much frustration with him.

S- What was she sick from?

K- She was just, I'm not sure exactly but I know there was pneumonia. So. That's what I was told. And just leading up to that with my parents there, helping us, helping me and then telling him what he needed to do and he didn't do it.

S- *Deep breath*

S- See I wasn't even aware.

K- You should be able to pull the report. Everything's there.

S- Where?

K-That would be La Plata.

S- Like her being sick or?

K- yeah, all that.

K- so, even here when I was in the hospital, he had the chance to take her in and he didn't.

S- She never went to the hospital?

K- Because I was also hospitalized before all that happened. So he did have, he was caring for them leading up to that, and that was barley my first day back. Because like I said, I had my own complications, and I was also in the hospital.

END RECORDING

VIDOE #2- SAME PHONE CALL: (12:44 minute video)

Transcription begins at the beginning of video

S- Any of these things I was not even aware of. The only time he called me was they flew her out to Denver.

K- He just told me that the hospital called you. And I was like okay, because I tried going too but I stayed there at the hospital late and when I got to the truck there was a bunch of cream of wheat in his truck. There a much of, especially his side, 99 banana bottles in that thing.

S- When they took [REDACTED] to the hospital?

K- Afterwards. Afterwards I found that all that stuff in there. I think I found his stash that he would take when he'd shower. They'd probably see it unless they cleaned it, but I doubt it.

K- All your calls

S- All my what? The phone cut out.

K- All my calls. Turn it in. Just check on [REDACTED] I hope she's okay

S- So the other thing to, is that, um, the reason why he saying that you killed [REDACTED] is because of the report that the investigator did because they found burns on her fingers and she had bruises all over her body. And She had a broken rib that grew back on its own, and he was like, oh yeah, she was the one who was at home with the girls all the time so, I don't know what she was doing.

K- Hmm

S- And still to this day, he's holding on to that. That's why I was asked if I knew anything about it and I said I don't know. Because the last thing I heard was they were going to close the investigation. So.

K- Not auditable

S- I mean.

K- I know they did CPR. Ask him about that.

S- What do you mean?

K- When they did CPR. it's on the report and part of their findings. Those were done, those were done when they responded. *yawn* Her broken rib was when they had to perform CPR on her.

S- yeah, so at this point his story is just, changing.

K- Yeah, because one day they did CPR and my frustrating part was I pointed out and that's why that officer was put on leave was because of how he did CPR. How he initiated it and everything and she was still breathing and how she was pretty much okay until he took over, the officer, without medical presence, because I had her on the couch when I was speaking with Dispatch. So, when they showed up, it just went completely out of hand. Ya know, Kaiol there and there was a towel under her neck and they were doing CPR and I don't them, ya know you don't do CPR with someone's neck supported, get that out of there and all that. All that was in the report. So. And like I said, the broken ribs, when I got questioned about that, that was something I pointed out and that itself had an investigation done.

S- ya know.

K- My understanding is he was put on leave and also, he doesn't work for La Plata County Sheriff's no more.

S - I just want you to know that, I just really hope, ya know, there's just not something you're not hiding for Kaiol because I never got to [REDACTED] I never did. I'm pretty sure you know that because Kaiol would never let me see or talk to them, not even over the phone. I mean, there's like a lot of emails that I have from way back then, that he wouldn't even let me see them and it was always because of you. He's like, Kim doesn't want you see the kids or talk to them. And that's where all the issues started. [REDACTED] was only four and I didn't even get to see her grow up. And now she's not here and no body ever talks about her. And it really bothers me that, ya know, she's gone. And nobody even remembers her. None of my family don't even. That's all they tell me, that I don't remember seeing your daughter or even meeting her. That really hurts me like everyday I have to deal with this and the fact that he's still putting me through this shit, it's like he doesn't get that part. He doesn't understand that my daughter was taken away. And I didn't even get to say goodbye to her and I didn't get to tell her one last time, that I love you and I didn't get to hold her. You know what I mean. That's what...

K- hmm. I think we just have to focus on [REDACTED] so you can have her back. And that's what, why I in the first place ya know, went to you. Because that was her one thing. And ya know, for you, you have to document all these things and let the cops know, you have to let. And far as Cammay, ya know, like I told you, he's going to challenge you, it's one thing, ya know, he's going to look at everything and he's going to look at everything the had to do to get them. He had to do the drug test, he had to do the hair follicles, he had to wear that ankle monitor and he said he's going to do the same thing to you if you wanted [REDACTED] back, ever.

S- I'm not the drug addicted here. And he's been using.

K- Yeah, regardless, he's going to make you out to be. He's already been. Ya know, I'm pretty sure he's told Cammay the same things that he's told me. That ya know, even while you were pregnant you were drinking, you were doing drugs. You did marijuana, all that stuff, and even those it's legal, but in the presence of a kid, ya know, he will use that. And he's just going to make you do all that, that he had to do. And right now, it's just going to be his and Cammay's word against you.

S- Well he's going to have to prove all that first.

K- But let your lawyer know, no one's scene Danielle. It was most likely that she's being left alone with that boy. Who has no biological ties to her. She's a little girl and he's a boy.

Transaction ends at 9:40 minutes into video.

END OF TRANSCRIPTION

NOTES on remainder conversation:

-Talking about a barber shop

-Common-in-law married to Terrance. Talking about child support, debt and

marriage.

-Getting lunch together

END OF RECORDING

After listening to the conversation between Kimberly and Salencia, I
found nothing of evidentiary value relating to the death of [REDACTED]

S-Hello

K-Hello. Can you hear me.

S- Yeah. Did you get my text?

K- Umm, yeah. Yeah I did. So, not surprised. That's what he also told his family. So, maybe someone will ask me about it. That's just something he's always be using. When he get's drunk he tells them that, so. So I'm not surprised. I'm pretty sure he's trying to be...

S- Do you know why he would be saying that though?

K- No I don't. But he always says that every time he got drunk. And him and I, we've tried to talk about. Him and I to counselling and everything to resolve that whole issue, but he continues to use that, so.

S- You guys went to counseling?

K-I did. What was her name, Regina? Even told me everything he would tell her and that was the thing he would tell her, so.

S-Yeah so. He was saying that you were abusing [REDACTED] and [REDACTED] ever since they were small.

K- *laughs* Go figure. I'm not surprised. I guess it's not the first time I've heard it so. And he's always like, how come you don't hang out with my family. Because of everything you've said and everything. You're the one who has to fix it. So. It's not my word, it's your word. So. I'm not surprised.

S- He wouldn't be hiding anything, would he?

K- I don't know. At this point, I really don't know. And I wouldn't be surprised. I'm cleaned from my record.

S- And she's like, it's all in the police report that Kim was abusing the kids.

K-What police report? Those are public access and I've had access to those. No where listed in there. Unless he's telling her that. But like I said I'm not surprised.

S- I don't know. And I just told her, I don't know what's going on. And for some reason she just keeps bring you up. She called me one night. I guess she changed her phone number but called and she was pretty intoxicated.

K-Oh, is she?

S- Yeah.

K-I don't know. You have cause right there, she's drinking. Highly under the influence. She's unable to care for your daughter. Her kids on that term. Right there is probable cause for you. You should have documented that call.

S- That's all she kept saying. Kim killed your daughter. You're not going to do anything about it or.

K-*Laughs* At this point it's just freaking ridiculous. Cause yeah. That was his excuse to drink. And that's where I would get pissed off at him. But she shouldn't be the reason she drinks, in that way. He would get even more pissed, saying I was controlling and I was like no, it's just a good reason to be drinking or an excuse to be using alcohol. I said I had to hide all those bottles. So, I'm not surprised and like I said, it's not the first time I've heard it. That he runs his mouth that way.

S- Has he told everyone he's been with that same story?

K- I think so. Pretty much. Regina just said that he was victim and was wanting her comfort and everything and was blaming me and I was a horrible person. I mean her and I still eat out and meet up. It's just kind of funny and we just laugh about it now.

S-Jeez.

K-I'm not surprised.

S-So the attorney's been trying to get in contact with him. And I guess the only way he contacts her is through her email. And I told him that I wanted to see [REDACTED] for Mother's Day and out of nowhere, she responded.

K-Oh really.

S- I told the attorney that maybe she's been impersonating him. I did tell him that if was aware of what he's doing and if he's okay with that. Ya know. And then she intercepted the email again, and she just started rambling on about you.

K- *laughs* About me? I get that I gave you everything that you needed but that's' just ridiculous. I don't know. And that's just where you have to be careful on your part, if she's going to bring that up. She's going to be like,

she's this way or that way. I don't know. It's kind of dumb that she keeps bringing me up.

S-I just wanted know, Did Kaiol ever hurt the girls? I mean, did he ever abuse them in some way?

K- As far as abuse, the way he would do it he would squeeze their legs, choked [REDACTED] and [REDACTED] when they are getting too loud and annoy them.

S- Did you ever see him do that to [REDACTED]

K- Umm. Not that I recall. But as far as [REDACTED] and stuff and [REDACTED] and [REDACTED] I've seen him do that. And to the point where I would have to tell him, leave them alone and him and I would get into arguments and fights over it. So. And that's just where my kids are. They want nothing to do with him.

S- Yeah. He's doesn't ever want to talk about the whole situation with [REDACTED]

K- With me he just had to be real drunk. That's the frustrating part, was ya know, we can't talk about when you're in this situation. He would be like, fuck you bitch. Let's talk about right now. And I'm like, no, if we're doing this, we're doing it sober. He would drink and stuff. I had a bottle a gin and he drank it all and refilled it with water.... He has a bad temper. He would squeeze their legs or squeeze them behind the head. As far as [REDACTED] he would spank her.

S- Would he do that to [REDACTED]

K- Yeah, he did it to all of them.

S- Gosh.

K-So, my kids say they want nothing to do with him. They want nothing to do with him. So. I don't bother him and I have nothing to do with him.

S- yeah, everything right now is frustrating. Yeah.

K- That shouldn't be the focus there. As far as [REDACTED] well-being. If he's going to keep using that against you. Well okay let's call everyone together then and sort this out. It pretty much has to be done within the courts.

S- She also accused me of doing drugs. She was saying that.

K-Oh yeah, Kaiol said that. And that you drank while you were pregnant.

S- I'm like wait a minute, isn't he the user.

K-Yeah. That's the same thing he would tell me.

S- I'm pretty sure he would be using while he's with her, right?

K- Yeah, pretty sure.

S- Or maybe stashing it in her house or something. How often would you say he was using meth anyway?

K- I don't know I can't say for sure. There were traces of it. Just randomly he would get upset about money.

Transaction ends at 14:20 minutes into video.

Conversation continues. Remainder 2:40 minutes of conversation was not transcribed.

The recording was saved and downloaded onto a compact disc.

After listening to the conversation between Kimberly and Salencia, I found nothing of evidentiary value relating to the death of [REDACTED]

END REPORT.

Unattended Death- New Information

Victim:

[REDACTED]

Involved:

-Salencia Thompson, [REDACTED] biological mother of [REDACTED]
-Kaiol Begay, [REDACTED], father of child of [REDACTED]
-Kimberly Joe, [REDACTED] Ex-Step-Mother
-Cammay Smallcanyon, [REDACTED] Kaiol's current girlfriend
[REDACTED], daughter of Salencia and Kaiol

On 10/23/2023, Salencia emailed me another video recording. Attached to the email, Salencia wrote the following:

"I also want to point out [REDACTED] has told other family members she wish she was there to protect [REDACTED]. She hasn't said anything to me about it I don't pressure you about that. But I'm concerned now that she's older she may know more. That is why kaiol is trying so hard right to come up with all these lies about me to keep the court from giving me my daughter."

The video Salencia sent was labeled VID_20230822_190416 and is 20.20 minutes long. The video recording is outside of a residence. The recording appears to be of Kimberly Joe and Salencia Thompson.

The following are notes taken from the recording.

- Conversation is about a obtaining a police report with child protection in New Mexico.
-There is an ongoing custody battle between Kim and Kaiol
-Discussing going to court about custody.
-Discussing Kim having temporary of custody of [REDACTED] while Kim and Kaiol were in the process of breaking up.
- Salencia asked Kim if Kaiol ever did anything to [REDACTED]
-Talked about Kaiol touching Kim's son, possibly [REDACTED] while he was in the shower and washing him. Something possibly something happened in the bedroom and [REDACTED] walked in. There was a lot of background during this part of the conversation. In the conversation, Kim stated it occurred at the house, pointing to the house she was standing in front of, (Shiprock, NM) Kim stated she reported it all to child protection and Officer Levi was working on their case.
-Kim and Salencia discuss the current investigation in New Mexico. Kim not letting Kaiol around her kids.

Conversation is hard to hear at parts due to background noise

Video was not transcribed.

After listening to the conversation between Kimberly and Salencia, I found nothing of evidentiary value relating to the death of [REDACTED]

Video saved and uploaded to a compact disk.

Unattended Death- New Information

Victim:

- [REDACTED]

Involved:

- Salencia Thompson, [REDACTED] biological mother of [REDACTED]
- Kaiol Begay, [REDACTED] father of child of [REDACTED]
- Kimberly Joe, [REDACTED] Ex-Step-Mother
- [REDACTED] daughter of Salencia and Kaiol, [REDACTED] sister

On 11/03/2023 at 1422 hours, I received the following text message from Salencia Thompson:

"Please call me. My daughter [REDACTED] just told me her sister didn't fall out from the tub."

On 11/06/2023, I contacted Salencia who advised the following:

- Salencia now has temporary custody of [REDACTED] for the next 6 months.
 - On 11/03/2023, [REDACTED] told Salencia that her little siblings remind her of [REDACTED]
 - [REDACTED] began crying. While crying, [REDACTED] told Salencia that [REDACTED] didn't fall out of the tub.
 - [REDACTED] was told to lie about what happened.
 - The day [REDACTED] got hurt, [REDACTED] and [REDACTED] were outside playing. At this time, [REDACTED] was alone in the house with Kim.
- Salencia didn't continue any further questioning of [REDACTED] because [REDACTED] was crying and was visibly upset. The following day Salencia asked [REDACTED] about what happened to [REDACTED] and [REDACTED] stated she didn't remember.

I hung up with Salencia and contacted Department of Human Services, Child Welfare Supervisor, Jessica Dalla-Cundiff and scheduled a forensic interview with [REDACTED]. Jessica had personally interviewed [REDACTED] on 10/17/2018 regarding [REDACTED] death.

A new Forensic interview is scheduled for 11/07/2023, at 1630 hours, at the Child Advocacy Center, 4 the Children.

My conversation with Salencia was recorded on the Callyo application. Conversation and text message were entered into evidence via WatchGuard.

Case status as been moved to ACTIVE.

Unattended Death
Forensic Interview- [REDACTED]

Victim:

[REDACTED]

Involved:

- [REDACTED] daughter of Salencia and Kaiol, [REDACTED] sister
-Salencia Thompson, [REDACTED], biological mother of [REDACTED]
-Kaiol Begay, [REDACTED] father of [REDACTED]
-Kimberly Joe, [REDACTED] Ex-step-mother of [REDACTED] and [REDACTED]

On 11/07/2023, at approximately 4:36 hours, I arrived at the Child Advocacy Center, 4 The Children, located at [REDACTED] in the County of La Plata and State of Colorado. Upon my arrival, I went to the auxiliary room where a laptop was set up with a live stream from the neighboring room where the forensic interview would take place. The camera had multiple viewpoints and with functioning audio.

Department of Human Services, Child Welfare Supervisor, Jessica Dalla-Cundiff, performed the forensic interview with [REDACTED] Child Welfare Supervisor, Jessica Dalla-Cundiff is trained and certified in forensic interviewing.

START OF INTERVIEW:

[REDACTED] is currently 11-years-old. [REDACTED] was 6-years-old when [REDACTED] died. [REDACTED] believed she was at the interview to talk about the death of [REDACTED] did not remember Jessica from their previous interview in 2018. Jessica asked [REDACTED] to tell her everything she remembered from the day [REDACTED] died. [REDACTED] stated the following:

-It was a normal school day for [REDACTED] [REDACTED] woke up and went to school that morning. [REDACTED] believed she was in the 4th grade.
-When [REDACTED] got home after, Kim told [REDACTED] to go play in her room.

-It was snowing that day and [REDACTED] wanted to go play outside with her bother, [REDACTED] and sister [REDACTED]

[REDACTED] was making a weird sound and [REDACTED] went to tell Kim that [REDACTED] wasn't breathing. Kim was in the shower.

- [REDACTED] called her father, Kaiol, and told him that [REDACTED] wasn't breathing.

-During the conversation about what happened, [REDACTED] used the word, "confused" on multiple occasions. [REDACTED] stated she was confused and Kim and [REDACTED] were also confused.

- [REDACTED] does not know what happened to [REDACTED]

-When [REDACTED] was asked what she thought happened to [REDACTED] [REDACTED] stated, "I don't know."

- [REDACTED] has never heard Kim or Kaiol talk about what happened to [REDACTED]

Jessica took a BREAK during the interview. Jessica and I discussed further questions that needed to be asked to [REDACTED]

INTERVIEW RESUMED

-Jessica asked [REDACTED] if [REDACTED] hit her head that day. [REDACTED] stated she didn't remember but advised her dad, Kaiol, told [REDACTED] that [REDACTED] had a head injury.

-Jessica asked [REDACTED] about any times [REDACTED] fell in the shower. [REDACTED] recalled a time where [REDACTED] slipped in the shower and hit her head "really bad". Kaiol was home and heard the fall and got [REDACTED] out of the shower. [REDACTED] believed [REDACTED] may have fallen on a Sunday. [REDACTED] did not know how close Sunday was to the day [REDACTED] went to the hospital.

-Jessica asked [REDACTED] if she was worried that someone did something to [REDACTED]. [REDACTED] stated, "Yes." [REDACTED] stated she would worry when [REDACTED] was alone with Kim but that she didn't really know why, just that [REDACTED] was fragile. [REDACTED] stated Kim seemed nice at first but while [REDACTED] lived with Kim, Kim would get mad at [REDACTED] and would sometimes grab her arm. At times Kim would tell [REDACTED] to sit on the wall for 5 minutes or would tell [REDACTED] to clean the house with no help. [REDACTED] stated that sometimes Kim would hit [REDACTED] and [REDACTED] didn't know why.

-Jessica asked if Kim ever hit [REDACTED]. [REDACTED] advised she never saw Kim hit [REDACTED]. [REDACTED] stated, "Kim thought [REDACTED] was a good child and treated [REDACTED] like she was her own child."

-Jessica asked if Salencia ever talks to [REDACTED] about [REDACTED]. [REDACTED] stated sometimes. [REDACTED] advised the last time they talked about [REDACTED] was when Salencia told [REDACTED] she was going to come to the interview and talk about what happened. [REDACTED] stated during that conversation, [REDACTED] told Salencia what really happened.

Jessica asked [REDACTED] what really happened with [REDACTED]. [REDACTED] stated [REDACTED] hit her head or something and wasn't breathing. [REDACTED] thought it all started because [REDACTED] fell in the bathtub and the next day she wasn't breathing.

[REDACTED] couldn't recall any other times [REDACTED] would snore or make any weird noises, advising [REDACTED] didn't snore. [REDACTED] did not remember [REDACTED] being sick often.

-[REDACTED] did not know what Salencia thought happened to [REDACTED]

END OF INTERVIEW.

After the interview, Salencia, Jessica and I met in the auxiliary room to discuss the interview. Jessica and I explained to Salencia no new information was given during the interview or any information that caused concern. I explained to Salencia that there were no obvious signs of foul play and the case would be moved back to inactive. Salencia began crying stating that it was Kim's job to take care of her daughter and she failed to do that. Salencia stated that Kim has never once told Salencia she was sorry for her loss of [REDACTED]. On multiple other occasions, Salencia has expressed to me that Kim has never once told her she was sorry, nor does Kim ever want to discuss [REDACTED] death. Salencia is very upset about the fact that Kim has never apologized.

My department issued body worn camera was active during the conversation with Salencia. The video has been uploaded to WatchGuard. The in-room camera footage from the forensic interview was placed on a flash drive. The footage was later

burned onto a compact disc and placed in evidence at the La Plata County Sheriff's Office.

Case status: Inactive

Email from Kaiol Begay to Salencia Thompson

Victim:

Involved:

-Salencia Thompson, [REDACTED], biological mother of [REDACTED]
-Kaiol Begay, [REDACTED] father of [REDACTED]

On 01/01/2024, I received an email from Salencia Thompson. The email Thompson sent me was a forward. The following is a copy and paste of the email Salencia sent me:

----- Forwarded message -----

From: Kale Begay [REDACTED]
Date: Mon, Jan 1, 2024, 2:40 AM
Subject: Forgive me
To: [REDACTED]

Salencia

I don't how to start this off. I know I shouldn't be doing this. Please just please don't tell the court about it I know you probably will but I didn't want this to come this far I wasn't trying to keep baby from you. I don't know why I let these women control me. I'm sorry again my angelbaby that I'm putting you through a lot. I've always been pressured by ex's in laws haha to be the best I can be for them. Im lost salencia from losing my dad my mom and our baby girl I drink because I don't know how to deal with it. It's been so hard for me to for get. You know my relationship with my dad haha how we never got along I wish we did. Even my mom never did like you haha I don't why I wonder about that sometimes. When I'm alone I think about us when we were together remember that time behind my nali house at the rocks hahah I can't believe this is how my life turned out. Salencia I'm so sorry for everything I put you through I know it won't change anything. But I need to tell you this. the recordings you have of Kim she's lying to you about everything she's just trying to save her ass but she's lying to you about me. I don't know if you remember but that night you me and baby stayed at the Hampton inn at farmington you were yelling at me and screaming asking what happen to [REDACTED] and when you use to stay with me in Durango I tried to tell you but you caught me talking to Kim and Regina about you *emojo* *emojo* I'm sorry again....I told you I need to tell you something but I couldn't...I scared at the time I didnt know what to do...I was always away working I never knew what Kim was doing while she was left alone with [REDACTED] Kim never did like you she made me keep our girls from you She always felt [REDACTED] looked like you that's what I loved about [REDACTED] she look exactly like you *emojo* *emojo* salencia I'm sorry I really am I ignored the signs. I know Kim did kill our baby that's why I told cammay my family everyone else and she's blaming me*emojo* *emojo* *emojo* salencia please don't hate me I can't hold this in anymore it's hurting me I drink all time it's only way it takes my pain away I don't why I talked bad about you I'm just mad your with travin!! And he gave you son!! We were suppose to have a son together *emojo* *emojo* salencia I'm sorry I'm sorry I'm sorry!!! Please forgive me idk what to do anymore!!!

Tell baby I love her so much my little Tom boy I'm sorry I'm kinda drunk right now looking closely at my screen trying to type. I love you salencia you will be my forever angelbaby *emoji* *emoji* *emoji* nobody can take your place your my Queen fuck travin *emoji* *emoji* all those other girls could never take that away from you I told you your my one an only.

END EMAIL

A copy of the email is attached to Spillman via files.

After receiving the email, I contacted Salencia by phone. Salencia was very concerned about Kaiol's email advising, "I know Kim did kill our baby". Salencia did not have any contact information for Kaiol except for two email addresses.

On 01/16/2024, I emailed Kaiol at [REDACTED]@yahoo.com and [REDACTED]@gmail.com. The email sent to [REDACTED]@yahoo.com was not sent due to the address not being valid. I received a MAILER_DAEMON regarding the yahoo account. The yahoo address is the email address that emailed Salencia on 01/01/2024.

On 01/17/2024, I received a voicemail from Kaiol from [REDACTED]. I contacted Kaiol at the provided phone number. Kaiol advised he lives in Montezuma Creek, UT and he does not currently have a vehicle. Kaiol does not have the means to come to Durango and advised if I came to Utah to speak with him, he would want to meet in a public place parking lot. Kaiol questioned if I had spoken with Salencia because they are currently in a custody battle over their shared daughter, [REDACTED] and Salencia has been trying to do everything she can to use as leverage against him. Kaiol advised there is currently a restraining order between him and Salencia, however per a name query, there is no restraining order between Salencia and Kaiol. I ended the phone call with Kaiol to check schedule availability for an interview.

I attempted to call Kaiol back to set up an interview or conduct a phone interview. I was unable to get a hold of Kaiol and his voicemail was not set up. I plan to follow-up with Kaiol.

Unattended death

1) On 5-6-2025 between 1608 hrs and 1641 hrs I observed a forensic interview of

2) Said interview took place at the Department of Human Services CPS office.

3) Jessica Dalla-Cundiff completed the interview.

4) Inv DM Lawson and I observed and listened to the interview over a monitor in a room separate from the interview room.

5) This interview was recorded and a copy of it in the LPCSO evidence. Analyst Ashley Self is in the process of transcribing the interview. For additional details, see Lawson's report. For complete details listen to the recording of the interview.

6) Dalla-Cundiff asked [REDACTED] if she remembered her. [REDACTED] replied, "Not so much". (Dalla-Cundiff completed two previous forensic interviews on [REDACTED] in the past (10-17-2018 & 11-7-2023).

7) Dalla-Cundiff explained the recording setup in the room and let her know Lawson and I were observing in another room.

8) Dalla-Cundiff went over the rules of the room to wit, be truthful and no guessing.

9) [REDACTED] was wearing a mask covering her nose and mouth at the start of the interview. Dalla-Cundiff asked her if she was sick. [REDACTED] replied, "Not so much". [REDACTED] took the mask off, which made it easier to hear and understand [REDACTED]

10) [REDACTED] knew that [REDACTED] case was reopened. [REDACTED] told Dalla-Cundiff she was scared and that [REDACTED] had died years ago. [REDACTED] said she was ready to talk about it now. She added that she might cry while doing so.

11) [REDACTED] said she went to school on the morning before [REDACTED] death.

12) Kim Joe picked her up after school and brought her home.

13) [REDACTED] said she and [REDACTED] were playing around "too rough" in the shower.

14) During the shower, [REDACTED] said she was "swimming" around [REDACTED] in the tub. She said [REDACTED] fell on her head. She said her father who, she thinks was there at the time, got them out of the shower and Kim Joe told [REDACTED] to go clean [REDACTED] room.

15) After she finished cleaning her room, [REDACTED] came out and saw [REDACTED] sleeping on the couch.

16) [REDACTED] brother, [REDACTED] told Kim Joe that [REDACTED] would not wake up. Kim Joe was in the shower at that time. Kim Joe told [REDACTED] to wait and when she got out of the shower she checked on [REDACTED] Kim Joe tried to wake up [REDACTED]

██████ She got no response from ██████ After this, Kim Joe called Kaiol Begay.

16) Kim Joe then told ██████ to take ██████ another room.

17) ██████ said she thinks something happened in the tub. She does not know of anything else that happened. She did not see any bruises.

18) Dalla Cundiff asked ██████ if Kim Joe hurt ██████ ██████ replied, "No, she loved her very much".

19) Dalla Cundiff asked ██████ if anyone hurt ██████ with discipline. ██████ replied, "No".

20) Dalla Cundiff asked ██████ if she was worried about any treatment of ██████ by either her dad or Kim Joe. ██████ replied, "No".

21) ██████ said this was all she had to "get off her chest".

22) ██████ does not recall any other time when ██████ hit her heard.

23) ██████ does not recall ever playing on the steps.

24) ██████ said that the foster family they were with in Utah wasn't "that bad". She said it was enjoyable and fun. She said nothing happened while they were there.

25) ██████ said that Kim Joe's boys were rowdy, but Kim Joe kept them in check. She described this rowdy activity throwing toys and running in the house.

26) ██████ thinks she is to blame for ██████ death. She thinks she was playing too rough in the tub with ██████

27) The only discipline measures she recalls that they received from Kim Joe was time outs. ██████ would have to stand against the wall and the younger kids would have to sit down. She does not recall any other types of discipline.

28) ██████ said she is tired of everything and thinks this is all her fault.

29) ██████ said she is in counseling, but it is over issues concerning her dad. She said she does not like talking about ██████ death because she does not want to remember it.

Unattended death
[REDACTED]

1) On 5-19-2025 at 0955 hrs, I received a phone call from Deputy Coroner Cathy Seibel. She was on speaker phone with Coroner Jann Smith.

2) Seibel told me that Dr Arnall had found the slides for this case and that they were now in the coroner's office.

3) Smith told me she would contact Dr Kurtzman to arrange for someone from her office or ours to hand deliver the slides to him.

4) Smith will advise me if our assistance is required.

Death Investigation

Report contense: Forensic Interview with [REDACTED]

Victim: [REDACTED]

Witness: [REDACTED]

Mother of child: Salencia Thompson [REDACTED]

Step-mother of child: Kimberly Joe [REDACTED]

Father of child: Kaiol Begay [REDACTED]

On 04/21/2025, at approximately 1312 hours, Salencia Thompson [REDACTED] [REDACTED] texted me that [REDACTED] wanted to talk about what happened to [REDACTED]. I coordinated with Jessica Della-Cundiff with the Department of Human Services (DHS), and scheduled a forensic interview for 05/06/2025.

On 05/06/2025, at approximately 1530 hours, the forensic interview occurred at DHS, located at 10 Burnett Ct. Durango, La Plata, Colorado. The interview took place in a designated interview room. Sergeant Jzzell and I were in the neighboring room, set up with a live stream of the interview.

DHS, Child Welfare Supervisor, Jessica Dalla-Cundiff, performed the forensic interview with [REDACTED]. Jessica is trained and certified as a forensic interviewer. Jessica previously interviewed [REDACTED] in 2018 and 2023. [REDACTED] is currently [REDACTED].

INTERVIEW:

After reviewing the interview process and explaining the interview room protocols, Jessica asked [REDACTED] why she wanted to speak with her. [REDACTED] stated that she had recently overheard her mother, Salencia, discussing the reopening of [REDACTED] case. Feeling that it was time to talk, [REDACTED] explained she had been afraid to speak up years ago but was now ready to share what she remembered and get it off her shoulders.

[REDACTED] began recounting the events of the day [REDACTED] died. She stated that she attended school that day, and after school, her father's ex-girlfriend, Kimberly Joe, picked her up. Upon arriving home, [REDACTED] said she and [REDACTED] took a shower together. While in the shower, they were playing, and [REDACTED] admitted that she may have been playing too roughly. [REDACTED] slipped and fell, striking her head. [REDACTED] recalled that their father was home at the time and that he took both children out of the shower. [REDACTED] was then instructed to clean her room.

While cleaning, [REDACTED] overheard her father and stepmother arguing. Her father then left for work. Meanwhile, [REDACTED] and her stepbrother, [REDACTED] were playing in the living room. When [REDACTED] later entered the room, [REDACTED] told her that [REDACTED] was asleep on the couch and that he could not wake her. [REDACTED] saw [REDACTED] lying on her stomach and moved her to her side. When [REDACTED] did not respond, [REDACTED] went to get her stepmother, who was in the shower.

[REDACTED] described feeling frightened when [REDACTED] would not wake up. In her panic, she attempted to feed [REDACTED] something. When her stepmother, Kim, was unable to revive [REDACTED] she contacted Kaiol via FaceTime. Kaiol told her he would come home immediately. After arriving, he also attempted to wake [REDACTED].

█████ stated she did not recall what happened next but believed she went to her bedroom. The next day, when Kim picked her up from a friend's house, Kim would not explain what had happened to █████ but asked █████ to sleep by her that night, saying she might be lonely. █████ cried and breathed heavily while recalling the events of that day.

Jessica then asked more specific questions regarding how █████ was injured. █████ believed the head injury █████ suffered in the bathtub may have caused brain damage. She did not recall any other incidents that might have led to such an injury.

█████ mentioned that she no longer communicates frequently with her father due to a restraining order, and also because of tension involving Kaiol's new girlfriend, Cammie. According to █████ Cammie has called Salencia while intoxicated, accusing her of being a bad mother and blaming Kim for █████ death. Jessica asked █████ whether Kim or anyone else had ever physically harmed █████ █████ responded that no one had, and added that █████ who was only four years old, was rarely disciplined. If she or her younger brother misbehaved, they would be spoken to and told to sit down. █████ herself would be told to stand against a wall or assist with household chores.

When asked about playing outside or on the stairs, █████ said they would sometimes play games like hide and seek outdoors, but were not allowed on the back stairs due to the presence of a goose. She also stated they never played on the front stairs near the vehicles.

Jessica inquired whether █████ recalled █████ having any bruises or injuries. █████ said she did not recall anything concerning. She also mentioned that prior to living with Kaiol and Kim, both she and █████ had been in foster care. █████ described her time in foster care as fun and said she did not recall █████ being hurt during that time.

Jessica asked for more details about the bathtub incident. █████ explained they had been playing a mermaid game using small bath toys. She recalled being overly excited, running and moving around in the tub. █████ also thought their father was present in the bathroom, assisting them with washing their hair, and that he was there when █████ fell.

When asked if there was anything else she wished to share, █████ expressed emotional exhaustion and guilt, saying, "I'm tired, tired of everything. This is probably all my fault."

Following a few additional off-topic questions, Jessica concluded the interview. The interview was recorded using the in-house camera system. I obtained the footage and entered it into evidence, uploading it to WatchGuard. Criminal Analyst A. Self transcribed the interview and attached the transcript to the case file in Spillman.

After the interview, I met with Jessica, Sgt. Ezzell, Salencia, and her husband. Jessica explained that no new evidence had been obtained, except █████ expression of guilt regarding █████ death.

I informed Salencia that █████ death remains under investigation and that once complete, the case would be referred to the district attorney's office for review. My body-worn camera was active during this conversation and was later uploaded to WatchGuard.

Suspicious death

V: [REDACTED]

1) On 12-9-2025 I contacted Dr Rob Kurtzman through text. I sent him some info concerning a surgical procedure [REDACTED] had undergone during her treatment in October 2018.

2) The surgical procedure highlighted is, found in Children's hospital records page 31. The records detail a surgical procedure on 10-17-2018 at 0230 hrs.

4) I then highlighted information from Kurtzman's review and asked him if the described surgical procedure can have anything to do with any of the injuries he describes in his review (letters E through I).

5) The injuries Kurtzman describes are as follows:

6) Kurtzman replied on 12-8-202. He told me, "Possibly related to E" but not in other letters. He added, "Looking at the images from the autopsy, and the autopsy report describing the location it seems that the procedure is not the cause of the hemorrhage, but would be good for Mike (Arnall) to provide a detailed description of the sample location".

7) On 12-8-2025, I asked Coroner Jann Smith if she had discussed Kurtzman's review with Arnall. Smith told me she and Arnall discussed Kurtzman's review

after it came in.

8) I asked Smith if she had amended the [REDACTED] death certificate to reflect Kurtzman's review or if she was leaving it as indicated by Arnall's report.

9) Smith told me she has not taken any action to amend death certificate in any way pursuant to Kurtzman's review. She will look at it again to determine what she will do.

10) I told Smith we would like to meet with her and Arnall to discuss Kurtzman's review.

Report contents: Interview with Kaiol Begay

NARRATIVE:

On 12/10/2025, at approximately 0920 hours, Investigator J. Ezzell and I, Investigator DM attempted to conduct an interview with Kaiol Begay [REDACTED] regarding the reopened investigation into the death of his daughter [REDACTED]. The interview was conducted in room 904 at the La Plata County Detention Facility, located at 742 Turner Drive, Durango, La Plata, Colorado. Kaiol was currently being held at the facility for an unrelated case.

Upon entering the interview room, I greeted Kaiol and explained to him that we wanted to speak with him about [REDACTED] case, acknowledging that it had been approximately seven (7) years since the incident. I informed him that we had reopened the investigation for two specific reasons: first, because both the manner and cause of death were classified as undetermined by the forensic pathologist, and second, because [REDACTED] mother, Salencia Thompson, had requested the case be reopened.

I further explained our investigative approach, stating that we were conducting new interviews to determine if anything had been missed during the initial investigation. I referenced studies indicating that traumatic events can cause people to forget details or suppress memories, which might resurface years later. I emphasized that our goal was to identify anything that might have been missed initially or not thoroughly investigated.

After providing this context, I asked Kaiol if he would be willing to speak with us about the case. Kaiol responded that he had spoken with his lawyer the previous day and had been warned that this interview would take place. He stated, "I don't want to talk about it right now," and requested that we contact his lawyer.

Kaiol identified his lawyer as Kelly Crystl out of Denver and advised that she also has an associate who works with her Jacqueline, unknown last. I asked Kaiol if he would be willing to speak with us if his lawyer was present, to which he agreed. I explained that I would attempt to contact Kelly Crystl.

At this point, I concluded the interview and informed Kaiol that we would return him to his cell. No further questions were asked.

The interview was terminated at this point, and we cleared interview room 904.

I later located contact information for Kelly Crystl with the Federal Public Defenders Office out of Denver, CO. Kelly's associate was identified as Jacqueline Silbermann, Chief Investigator with the Federal Public Defenders Office out of Denver, CO. I plan on following up with Kelly regarding setting up an interview with Kaiol.

Suspicious Death

V: [REDACTED]

S: Kimberly Joe, [REDACTED]

FOC: Kaiol Begay, [REDACTED]

MOC: Salencia Bitsilly/Thompson, [REDACTED]

- 1) On 1-12-2026, Inv Pete Berryhill and I met with Salencia Thompson and her husband Trayvon Thompson at [REDACTED] in Kirtland, NM. This is the home of Vangie Randall-Shorty who is also a representative of an organization known as Missing and Murdered Dine Relatives Coalition. Vangie was absent from this contact for much of the time as she was involved in another meeting too. Tommy Reed was also present; however, he arrived several minutes after our meeting began. Reed was in a relationship with Kimberly Joe in about 2010 (+/-).
- 2) The purpose of this meeting was to obtain two audio recordings and one video/audio recording all of which Salencia Thompson had made. This meeting was captured on Berryhill's body cam and my body cam. For complete details of this contact, review the body cams which have been attached to WatchGuard in this case.
- 3) Said recordings are of conversations between Cammay Smallcanyon and Salencia Thompson (by phone); Kaiol Begay and Salencia Thompson (by phone); and Kimberly Joe and Salencia Thompson (in person).
- 4) Cammay Smallcanyon was married to or was the girlfriend of Trayvon Thompson in the distant past and Kaiol Begay in the recent past. Kimberly (Kim) Joe was living with Tommy Reed at one point in the past and then with Kaiol Begay later. Salencia Thompson was married to Kaiol Begay in the past and is currently married to Trayvon Thompson.
- 5) Salencia Thompson captured said recordings with these persons without their knowledge. She still had the first two recordings on her phone. The third recording, with video was no longer on her phone; she had previously provided it to Reed, and it is still on Reed's laptop computer.
- 6) During this contact, Salencia Thompson played the recordings she made of Cammay Smallcanyon and Kaiol Begay, which I captured on my body cam. Reed played the video recording of Kimberly Joe.
- 7) The first recording was made by Salencia Thompson on 5-17-2023. This was a phone call Salencia received from Cammay Smallcanyon. Cammay Smallcanyon was married to Kaiol Begay around the time of this call.
- 8) In this call, Cammay Smallcanyon sounded intoxicated. She spoke of problems involving Trayvon Thompson who she used to be married to. She also discussed issues related to who is the better mother, her or Salencia Thompson. She accused Salencia Thompson of stalking her.
- 9) Salencia Thompson denied the allegation of stalking and told Cammay Smallcanyon, "I don't even talk to Kim."
- 10) The conversation shifted to Cammay Smallcanyon questioning why Salencia Thompson was "teaming up" with Kim Joe (Kimberly Joe). She asked Salencia Thompson, "Why the fuck are you choosing her side?"
- 11) Salencia Thompson told Cammay Smallcanyon that she sounded angry. Cammay

Smallcanyon replied, "I am angry." She then told Salencia Thompson, reference Kim Joe, "This bitch who fucking killed your daughter. Take her side." Salencia Thompson replied she was not taking anybody's side.

12) Salencia Thompson asked Cammay Smallcanyon why she was talking about her kids. Cammay Smallcanyon replied, "No, I'm just trying to clarify, why the fuck are you taking sides with this, who killed your daughter, who abused your daughter, who fucking abused [REDACTED] and [REDACTED]. Why the fuck are you taking her side? Why the fuck are you fucking believing anything that she fucking has to say to you? Kaiol told you this."

13) The second recording is a phone conversation between Salencia Thompson and Kaiol Begay. Salencia Thompson made this recording on 11-26-2024.

14) Their conversation concerned a restraining order by Salencia Thompson against Cammay Smallcanyon.

15) Kaiol Begay told Salencia Thompson, "Like I said, I just want to move forward. I want, I don't want any more problems." He added, "Like I said, it interferes with her job."

16) Salencia Thompson told Kaiol Begay, "I didn't like the fact that she (Cammay Smallcanyon) was telling me that, oh, you don't care that Kim killed your daughter, like you're not upset about that, you're not going to do anything about it."

17) Kaiol Thompson told Salencia Thompson that Cammay Smallcanyon was willing to apologize.

18) Kaiol Begay told Salencia Thompson he couldn't be choosing sides; he was for [REDACTED] no matter what.

19) Salencia Thompson and Kaiol Begay then discussed the investigation concerning [REDACTED] and what the cause might be for her death. Kaiol Begay told her he had found his closure.

20) Salencia Thompson told Kaiol Begay she was concerned about the conflicting narratives. She told Kaiol Begay that Cammay Smallcanyon claimed he had told her that Kim Joe was abusive to the kids and that Kim Joe killed the baby.

21) Salencia Thompson asked Kaiol Begay, "why didn't you tell the detective what really happened? I mean, if Kim really killed our daughter, I would want her to take responsibility."

22) Kaiol Begay replied, that he wanted Kim Joe to be accountable too. He added that when he was with Kim Joe, he kept asking her what happened. He talked about [REDACTED] being healthy and then falling in the tub. He said he felt it was hard to believe. He said there was something on her legs, but he thinks that is from when she was outside playing and slipped on the deck or something. He described being at work late and then getting a call that something was wrong with [REDACTED] and that's when he got in the truck and "hailed ass all the way home."

23) Kaiol Begay suggested to Salencia Thompson there was possible interference in the investigation from Kim Joe's father (Phillip Joe). Kaiol Begay told Salencia Thompson that Kim Joe's dad is a retired policeman and he was "a chief or a captain or some bullshit" and her dad has a lot of connections as far as he knows.

24) The third recording is an in-person conversation Salencia Thompson had with Kimberly Joe in about September 2023. This video/audio was captured by Salencia Thompson while she was speaking with Kimberly Joe. Kimberly Joe was not aware that the recording was being made. Tommy Reed placed the video on a thumb drive for me and e-mailed it to me also. I learned later that the e-mail did not come through, but the thumb drive worked and has been entered into this case on WatchGuard.

25) Tommy Reed had this third recording on his laptop. He played this video for me, and I captured it on my body cam. The audio on this recording is very difficult to hear. In this video there is information concerning Reed's children being molested by Kaiol Begay. This has been reported to both tribal and federal law enforcement in NM.

26) In this third recording there is talk of child abuse allegations unrelated to [REDACTED]. There is talk concerning [REDACTED] sister. In this conversation it sounds like Kim Begay talks about [REDACTED] being abandoned by Kaiol Begay.

27) I did not hear anything related to [REDACTED] death in this recording.

28) After the recordings were captured on my body cam, Salencia Thompson discussed various aspects of this case and her frustrations related to the investigation. She told me she has a lot of questions. I asked her if she could write those questions out for me, and she indicated she already had the questions written out. I asked her for a copy of her questions so we could attempt to answer what we could. She told me she would send them to me at another time.

29) Salencia told us this is the second time she's going through this. She told us that the first time she wasn't in the right, "clear mind", but that she has changed her life since this happened. She told us she has been sober for four years now.

30) Salencia Thompson questioned Kaiol's commitment to finding the truth. She said she didn't understand why he is not out here trying to fight for his daughter; she didn't see the same sympathy coming from him.

31) Salencia Thompson also expressed concerns about Kim Joe's behavior: "Not only that she failed to call 911."

32) I asked Tommy Reed about the allegations of sexual assault on his children, and he confirmed that reports had been filed with both the Farmington FBI and a criminal investigator in Window Rock.

33) Tommy Reed told me about his past relationship with Kim Joe, stating they were together on and off around 2010. He described her behavior as, "She would talk to herself. I mean, she carries full conversations with herself. It was one of them things like you, you're kind of afraid to go to bed because you're not, you know, you're afraid that you're, you're not going to wake up, and that's the type of like mental stability that she had even at that time."

LA PLATA COUNTY SHERIFF'S OFFICE

INVESTIGATIVE REPORT

Case Number: S18-20921-52

Date: 1-12-26

Time: 12:00 pm

Reporting Officer: Inv. Berryhill

Subject:

Interview regarding recorded conversations related to possible child death investigation.

Attachments:

-Watchguard BWC Video

SUMMARY OF INVESTIGATION

On this date, at approximately 12:00 pm, Sgt. Ezzell and I met with Salencia Thompson, Travon Thompson, and Vangie Randall-Shorty (advocate for Missing and Murdered Dine Relatives Coalition), regarding recordings of conversations pertaining to / evidence of a possible child death investigation. The purpose of the meeting was to review and document recorded conversations that may contain evidence related to the death of a child named [REDACTED]

Note: The location of the above was: [REDACTED] Kirkland, NM.

DETAILS OF INVESTIGATION

Ezzell and I were informed that another individual named Tommy Reed was expected to arrive with a laptop containing additional recordings. He explained that Reed wanted to play recordings for us and that we could record them with our body cameras.

First Recording Information

Salencia explained that the first recording was of a phone call from Kaiol Begay's wife (later identified as Cammay Smallcanyon) that occurred on May 17th, 2023.

Salencia stated that Cammay called her in the middle of the night and was "pretty

intoxicated" during the call. Salencia stated that during this time, she was "in the process of getting my daughter" and had to "maintain myself, especially the way she spoke about my daughter."

Salencia identified the individuals on the recording as "Cammay Begay and myself"

and stated that Cammay "spoke about Kimberly Joe" during the call.

First Recording Content

The recording was played, and Ezzell positioned himself to capture it on his BWC. The recording contained the following key statements from Cammay Begay:

-The caller claims the listener's husband is Travon Thompson, who is the caller's ex.

-Accusations that Travon Thompson "likes little girls" and engages in inappropriate behavior.

-The caller urges the listener to confront Travon directly, asserting that he wouldn't lie about their past relationship.

-The caller accuses the listener of stalking and asking about the caller's life. Allegations of a breach of confidentiality involving a lawyer and sharing private numbers.

-The caller is angry and accuses the listener of teaming up with someone who allegedly caused harm, described as a "bitch who killed your daughter."

-The caller expresses frustration over the listener's alliances and decisions, repeatedly questioning why the listener sides with the person accused of harm.
-The caller mentions knowing and caring for [REDACTED] from a young age and suggests having been more present for her than the listener.
-The caller insists they are trying to clarify the situation and express disbelief over the listener's actions and alliances.

Second Recording Information

Salencia then informed us that she had a second recording of a conversation with someone identified as "Kaiol." When asked when this recording was made, she stated it was from "back in 2024" and specified the date as "11-26-2024."

Second Recording Content

The second recording was played, and Ezzell again positioned himself to capture it on his BWC. This recording contained a conversation between Salencia and an individual identified as Kaiol. The conversation was extensive and included discussions about a protection order, allegations regarding the death of a child named [REDACTED] and various other personal matters. Key portions of the conversation included:

1) Kaiol discussing issues with a protection order affecting someone's employment:

-Kaiol expresses uncertainty about the consequences of the protection order.
-He mentions not being aware it would impact the person's school or job.
-He describes the situation as a "big old mess."

2) Salencia explaining why she filed a protection order:

-Salencia recounts an incident where someone's mom called the cops on her with a false statement about domestic violence.
-She mentions accusations of drinking during the incident.
-An email was sent threatening to tell the court she was selling drugs and that people were watching her home.
-This led to her filing the protection order.
-She also mentions frustration over accusations that she didn't care that Kim killed her daughter.

3) Kaiol discussing the death of [REDACTED]

-Kaiol apologizes for laughing previously when discussing [REDACTED] death. He recalls a woman named Dawn who suggested it might have been due to natural causes.
-He admits he was arrogant and ignorant but expresses a desire to understand what really happened.
-He shares that at the time, he was in a phase with drugs and alcohol but has since found closure.

4) Kaiol explaining his whereabouts on the night of the incident:

-Kaiol details where he was: working on a house at Ted Reynolds and Durango, with TJ, Rodolfo, and possibly others.
-He mentions using Wi-Fi for video calls due to no phone service in the area.
-Rodolfo's wife Catherine got the phone call, leading to Kaiol contacting Kim.
-Upon learning what happened, Kaiol rushed back to the trailer.

5) Kaiol expressing grief about [REDACTED]

-Kaiol shares his pain about not seeing [REDACTED] grow up after she was taken away.
-He regrets not saying goodbye or telling her he loved her one last time.
-His only memories are singing "Twinkle, Twinkle Little Star" to her and hearing her breathe one last time.
-He laments not having baby pictures or other memories of her.

6) The recording ended with Kaiol stating he needed to call back later:
-He mentions needing to update someone's information.
-Promises to call back soon.

Third Recording Information

At this point, Tommy Reed arrived and introduced himself. He stated that he had a video recording showing "admission of whose of, um, my son" involving Kimberly Joe. He explained that in the recording, "she admits that, um, Kaiol, um, molested my son, but not only my son, but his mom's sisters as well." He stated that the recording showed Kimberly and children in the frame. When asked when this recording was captured, Tommy stated it was from September 2023. Tommy described the recording as being approximately 20-30 minutes long and stated that "around the 10 minute mark is where, where you can capture that" referring to the admission about the alleged molestation.

Third Recording Content

The content was difficult to hear (volume extremely low), but to showed [REDACTED] and "Kim" (presumably Kimberly Joe).

Discussion of Evidence Transfer

Ezzell and I discussed methods for transferring these recordings.

Additional Information and Documentation

During our conversation, Salencia referenced a document that appeared to be an assessment report completed by someone named Jessica Dalla Cundiff (CPS). She pointed out sections of the report that mentioned injuries to [REDACTED] and statements about the inconsistency between the reported cause of injury and the actual injuries: "Right here it says explanation not consistent with injuries. She was not breathing right, acting right for a few hours. Kids don't fall in the bathtub, become unconscious, and then die 3 to 4 days later." Salencia expressed frustration about conflicting information in the reports and statements from various individuals. She stated: "It's just from... Just reading all this is... Yeah, it's a lot. That just doesn't make sense when we go back and read it where, you know, the report says one thing and then the conversations, you know, say a totally different thing of how, you know, things went."

Salencia also pointed out a section in the report stating: "Kaiol stated he was working so much because he didn't want to be home." She questioned this statement in relation to other information she had received.

Contact Information Collection

I collected contact information for Cammay Begay:

Phone numbers: [REDACTED] or [REDACTED] (possibly ending in [REDACTED])

Date of birth: [REDACTED]

Full name: Cammay Sara Begay

Maiden name: Benoid (spelled B-E-N-I-O-H)

Current residence: Believed to be in Durango, but possibly living with her ex-husband Dakota Small Canyon in Montezuma Creek

I also collected contact information for Tommy Reed:

Full name: Tommy Reed

Date of birth: [REDACTED]

Phone number: [REDACTED]

Address: [REDACTED] Farmington, New Mexico

Additional Information About Kimberly

Tommy provided information about his past relationship with Kimberly, stating they were together "on and off in 2010" and that the last time he saw her was "probably 2010 or so." He described concerning behavior: "She would talk to herself. I mean, she carries full conversations with herself. So to me, like, it was one of them things like you, you're kind of afraid to go to bed because you're not, you know, you're afraid that you're, you're not gonna wake up, and

that's the type of like mental stability that she had even at that time." Tommy also described harassment by law enforcement that he believed was connected to Kimberly's family: "I really had a bad run with law enforcement for a long time... He has ties to... So I would always have like 3 patrols. They were parked in front of my house, just more for intimidation." He stated that Kimberly had once told him: "My dad told me that if I call the cops and I tell them that you hit me, that they're going to believe me more than they believe you and you're going to jail."

Tommy mentioned that Kimberly's father was a Lieutenant in law enforcement, her uncle also worked in law enforcement, and she had aunts who worked as clerical receptionists. He stated that her mother "was also involved in, you know, the social service side of it."

Information About Sexual Assault Investigation

When asked if the sexual assault allegations had been reported to law enforcement, Tommy stated: "They're, they're actually the, the pharmington and FBI and um, the criminal investigator in Window Rock, they're, they're taking care of it right now." He explained that he had to report it outside of Ship Rock because of Kimberly's family connections to law enforcement there. "I needed, I needed answers to what was going on, so I couldn't just go to Shiprock, where, where he's a resident and have it swept under the rug or something, some, something happened. So I actually had to file 2 police reports."

Conclusion of Meeting

At the conclusion of the meeting, Ezzell informed Salencia and Tommy that he would check for a thumb drive in his vehicle and make arrangements for them to transfer the recordings. Ezzell also told Salencia that if she had a list of questions regarding the investigation, she could email them to him, and he would attempt to find answers based on our documentation.

Salencia expressed frustration about the length of time she had been waiting for answers: "I'm waiting for those answers for like almost 2 years now since it reopened." She also expressed concerns about her reputation being damaged by rumors: "It's just a little like frustrating because not only that Cammay has ruined my reputation by telling everybody that I was the drunk mother who caused this injury for my daughter, not even from her, from Kimberly, her family."

Salencia stated that she had been sober for 4 years and was focused on protecting her daughter [REDACTED]. She expressed concern about trauma that [REDACTED] had experienced and frustration that Kaiol was not more involved in seeking justice for [REDACTED]. "I don't understand why, like, Kaiol is not out here trying to fight for his daughter. I don't see that same sympathy coming from him."

The meeting concluded with an exchange of contact information and assurances that we would follow up regarding the evidence transfer and any questions Salencia had submitted.

Please review all other reports, documentation, and recordings for further information.

Subject Interviewed: Kimberly Joe
SUMMARY OF INTERVIEW

On this date, Sgt. Ezzell and I conducted a follow-up interview with Kimberly Joe, regarding a case involving the death of a female juvenile identified as [REDACTED]. The interview was conducted at the BIA Office, located in Shiprock, NM. Kim arrived with her newborn baby. This report documents the statements made by Kim during this interview.

INTERVIEW DETAILS

Ezzell and I began the interview by greeting Kim and asking how she was doing. Kim was informed that the door was closed for privacy but unlocked, and that she was free to leave at any time as she was not under arrest. Kim immediately stated that she was dealing with postpartum depression and would try to maintain her emotions during the interview.

Kim assured that she could take her time and that if there were questions she didn't want to answer, that was entirely up to her. She responded that she wanted to help us and "get this situated." Kim then mentioned that she had previously tried to reach out to us regarding a recording she had made, but the phone containing the recording had been smashed during an altercation. She stated, "I did try to reach out and show you a recording that I had."

When asked about the recording, Kim described an altercation that had occurred in Durango. She explained that she had wanted to go to sleep, but her partner, whom she referred to interchangeably as "Kaiol" and "Kyle" throughout the interview, was drunk and "started going off" on her. Kim stated that he began talking about "the whole case" and she told him she was going to leave. According to Kim, he became angry and started hitting her, at which point she began fighting back.

Kim stated that during this altercation, she was trying to call her father. She managed to activate the recording function on her phone when her partner "held her up" and began making threats. Kim quoted him as saying, "I'm gonna tell Salencia, I'm gonna we're gonna put you away and we're gonna make this your fault." Kim stated that she responded by saying he couldn't do that, to which he allegedly replied, "Just watch me. I'm gonna make you pay." Kim reported asking what she had done wrong, and he allegedly responded, "I make it your fault?" When asked if her father was aware of this recording, Kim stated that he was not. She explained that she didn't tell her father because she was concerned about how he might react, stating, "When you hear your baby is getting hurt, you know, you might react differently." Kim mentioned that she eventually told her father she wanted to leave and move back home because "giving it that again just wasn't working."

Kim stated that she had informed a friend about the situation, and this friend had allowed her to use her car. Kim mentioned that they had tried to go to an office, but found that it had moved to another location. She also mentioned that her sister, Natasha Charlie, who lives in Nevada, might be aware of some issues as Kyle had allegedly called her while intoxicated. According to Kim, her sister "went off on him and got after him." Kim provided her sister's phone number as

505-586-4862 when asked.

When asked when the incident with Kyle occurred, Kim stated it was more than a year ago, possibly "2-3 years ago." She explained that shortly after this incident, she was able to secure housing for herself and her children through Navajo housing, where they have remained since.

Ezzell then asked Kim to provide a rundown of the events that occurred a few days before and on the day when 911 was called regarding [REDACTED]. Kim responded that she didn't want to remember and mentioned that she had suffered a concussion while working at a 7-11 gas station when she got into a "tussle" with a robber who "bashed [her] head into the floor." She stated this occurred "not too long after" but did not provide a specific timeframe.

Kim then mentioned that she had been dealing with preeclampsia and was frequently in and out of the hospital. She recalled that her parents had expressed concern to Kyle about [REDACTED] stating that "something wasn't right with her" and that he needed to take her to the hospital to be checked. According to Kim, Kyle "made a big deal about it" and got into an argument with her mother. When asked how long before [REDACTED] death this occurred, Kim stated, "I think it was like the 1 or 2 days before that. I can't remember."

Kim mentioned that she wished we had seen "the truck" because when she left the hospital, "there was a bunch of miniatures in there." When asked to clarify, she confirmed she was referring to small bottles of alcohol, specifically "99 Bananas and that sort." She estimated that Kyle would consume a lot of these small bottles daily, referring to what she called "a sleeve or something." When asked if she remembered any injuries to [REDACTED] in the days or weeks before she passed, Kim initially began discussing her own children's medical issues. She mentioned that her daughter [REDACTED] and son [REDACTED] were diagnosed with seizures, with [REDACTED] condition affecting his right ear, causing deafness. She stated that she had asked Kyle if these conditions were hereditary, but he dismissed her questions as "stupid." Kim then stated, "As far as injuries, I can't think of any like, like that far back."

When asked about how they disciplined [REDACTED], Kim stated, "Discipline, I mean, she, she never really acted up. I mean, the only other thing that Kel had had me do was like 5 minutes in the corner, that was it." Kim then shifted the conversation to discuss how Kyle had "abandoned [REDACTED] (identified as [REDACTED] sister) on several occasions. She stated that she had reported these incidents to social services and local police, informing them that she had "been through an incident" and had received threats. Kim explained that she wanted the authorities to "look over" [REDACTED] and ensure her safety.

Kim stated that she had made these reports to Shiprock PD, not to the LPCSO. She mentioned that the police were aware of her and Kyle because "when he's drunk, he tries to come around." She alleged that Kyle had tried to break into her house and had abandoned [REDACTED] "on several occasions."

When asked about custody of [REDACTED], Ezzell informed Kim that he personally did not know who had custody of her at that point, but Kim believed it was Salencia. Kim stated that she had informed Salencia about Kyle abandoning [REDACTED] and had taken [REDACTED] to Salencia's apartment but wouldn't leave her there "until everything was OK" because she didn't want to be accused of abandonment.

Kim mentioned that [REDACTED] had talked about a "foster grandma" who would spank the children for being "too loud" or for "screaming" when they played. When Kim asked [REDACTED] about this, she said [REDACTED] would start crying. Kim stated that she had tried to get family medical history information because of her children's seizures.

According to Kim, Kyle had told her that when Salencia left, "she left to be with this boy" and told a "foster grandma somewhere up here on the hill" that the girls were her granddaughters. Kim provided a complex narrative about Salencia's relationships, stating that the boy was incarcerated, and Salencia

then became involved with the boy's uncle. They allegedly ran off to Utah, and Salencia had a child with this uncle. Kim stated that Salencia eventually abandoned that child as well when the relationship didn't work out. When asked about when Kim and Kyle moved into a trailer park in Lilly Bell (Durango, CO) and when the two girls came to stay with them, Kim estimated it was "maybe like, maybe 3 weeks, 3 weeks into that." When informed that Kyle had apparently obtained custody of the girls around March, Kim stated that they had stayed with "the grandma" as part of an agreement between Kyle and Salencia. Kim explained that she was busy with her son [REDACTED] and was expecting [REDACTED] at the time, and "didn't really have any say" in the matter. She stated that Salencia had made it clear that Kim was "not their mom" and had "no say." Kim confirmed that the girls came to stay with her and Kyle about three weeks before [REDACTED] passed away, "like in the fall." She stated that before coming to stay with them, the girls had been with the "foster grandma" who lived "somewhere on the hill" in Farmington, not Utah. Kim stated she did not know the foster grandma's name or how she was related to either Salencia or Kyle, reiterating that "there's no relation."

At this point in the interview, Kim received a call from her son and briefly paused to speak with him. She explained that her family was waiting for her as they had a ceremony planned for her baby that weekend, and her sons were helping her prepare.

Kim then continued explaining the complex family dynamics, stating that the "foster grandma" was the mother of Salencia's boyfriend at the time. She stated that Salencia referred to this woman as "mother-in-law" and eventually as "grandma," wanting her daughters to know her as their grandmother. Kim reiterated that the boyfriend was incarcerated, and Salencia then became involved with his uncle, with whom she ran off to Utah and had another child. Kim stated that when Salencia went to Utah with the uncle, the two girls stayed with the grandmother. She mentioned that when she was about six months pregnant, Salencia tried to come back and told Kyle they should "be together and work it out for the girls."

When asked about the day the ambulance was called for [REDACTED] Kim stated, "I can't remember. No." She mentioned that "the boss's wife came to help us cause he wasn't coming. She, she was the one that helped me. And she was the one that that called 911." When asked about what she remembered from that morning when the girls woke up and [REDACTED] got ready for school, Kim stated, "I can't say that I remember exactly. And I, I really don't wanna say cause I, I like I said, I just don't wanna change anything to it or say something wrong."

Kim acknowledged that she might have remembered more details a couple of years ago but couldn't recall specifics now, especially because she had recently had her son. When asked how much time elapsed between the boss's wife arriving and Kyle getting there, Kim stated, "I, I don't know. I, I can't remember."

When asked if [REDACTED] fell or was hit with anything that day, Kim initially responded, "No. I can't." She then mentioned, "There was that one thing she did, and and, and my, my daughter kind of used to do it, but she doesn't do it anymore either because she would, um, like kind of just like fall like she would just kind of like we thought she was throwing herself herself down and she would, she would do that pretty often." Kim drew a parallel to her daughter's behavior, stating that they now recognize when her daughter is about to have a seizure.

When asked about reports of the girls being on a slide on the deck at the back of the house, Kim stated, "They always snuck out there like. Um, no, I don't I can't recall that part, but yeah. They, they were outside, I think. I don't know." When asked about anything involving a bathtub, Kim stated, "No. I can't say that I do."

When asked if Kyle ever disciplined [REDACTED] Kim stated, "And he did. I was always

in the room." When asked what he did, Kim's response was unclear, mentioning "I don't know." When specifically asked if he would spank the girls or hit them, Kim stated he would "make him sit in the corner."

Kim then began discussing Kyle's behavior toward her own children, particularly [REDACTED]. She stated that Kyle would pick up [REDACTED] and throw him on the couch, telling him to sit down. When asked if he ever did anything like that with the girls, Kim stated, "I don't know. Cause I, I, I've never seen him." She explained that she would tell Kyle when the girls were being "rude," and he would "go talk to them" while she would go into another room with [REDACTED]. Kim described an incident that occurred later when Kyle had returned to her life as a babysitter while she was working. She stated that her oldest son, [REDACTED], didn't want to be around Kyle and stayed with her parents, while [REDACTED] and [REDACTED] had to stay with Kyle. Kim recounted that one day after working a double shift at the gas station, she woke up to find Kyle "getting mad at [REDACTED]. She witnessed Kyle throwing [REDACTED] and "whacking him in the head."

Kim mentioned that she had purchased a bottle of gin created by Ryan Reynolds and had hidden it in her cabinet. After the incident with [REDACTED], she noticed the gin had been refilled with water, leading her to believe Kyle had consumed it, which "probably had caused his, his anger outbursts."

Kim stated that her oldest son had talked about how Kyle would "hit them and spank them." She mentioned that [REDACTED] now requires hearing aids and suggested this might be related to Kyle's treatment. Kim stated that Kyle had threatened that if she ever "pursued him this way," he would "make this my fault."

When asked if the "foster grandma" on the hill was related to Kyle, Kim reiterated that she was not related to either Kyle or Salencia, but was the mother of Salencia's boyfriend at the time. Kim mentioned that Salencia had been in relationships with multiple men, including Kyle, the boyfriend who was incarcerated, the boyfriend's uncle, and most recently, Kyle's "stepbrother" whom she identified as possibly named "Tray" or "Trayvon."

At this point in the interview, I asked Kim if she remembered previously interviewing with me. She confirmed that she thought she did. I mentioned that she and Kyle had come in together for that interview. I then asked if she had been scared to tell us anything or if she had felt fearful because Kyle was present during that interview. Kim responded, "No. It's just understanding now, you know, dealing with my preeclampsia with [REDACTED] that's, that's what I had. And everything. I, I did do my best to tell you guys the full truth."

Kim mentioned that since that time, she had witnessed how Kyle disciplined her children, particularly [REDACTED]. When I noted that she had mentioned Kyle making threats to her, she confirmed, "Yes, he did." When asked if she was scared to tell us something she knew about, Kim stated, "No, well, the threat did involve, but it involved him with Salencia."

Kim explained that she had told Kyle she would put him on child support, and he had threatened her. She also mentioned that her oldest son had said that Kyle "would touch him in certain places." Kim stated that she never pursued this because of Kyle's threats. She quoted Kyle as saying he was "gonna make it my fault" and that he would "have [REDACTED] say something" and "have Salencia come after me."

Kim described an encounter with [REDACTED] at Walmart, where [REDACTED] ran up to her and hugged her. Kim stated that Salencia had a "really mean face" during this interaction. Kim mentioned that she had told [REDACTED] "Your mom has tattoos on her face. Don't do that to yourself. I want you to have a better life."

When asked to clarify whether Kyle goes by "Kaiol" or "Kyle," Kim stated, "He goes by both." When asked for specifics about Kyle's threats, Kim stated that during one argument, he said, "I'm gonna have Salencia open it back up. I'm gonna have her have her do it. You, you think I don't know, and he goes, we're gonna, we're gonna put you, put you away so you, you don't bother us, you don't

bother me, do you fucking understand." Kim stated that he threatened to "change his story."

Kim expressed regret that the recording of the altercation was lost when Kyle smashed her phone "along with the TV." She described hiding in the bathroom while Kyle "busted the drywall" and later threw a crock pot at her as she was trying to leave.

When informed that Kyle had sent an email to someone saying he knew Kim had killed [REDACTED] Kim responded, "No. I don't. I don't know why he would say that." She then mentioned that Salencia might have recordings of Kyle's girlfriend, whom she identified as "Cammy." Kim stated that Salencia had played "a voice, a voicemail or something where they were drunk and they were laughing" and discussing how "they should blame me" and "hold me responsible." Kim was unsure if Salencia still had this recording.

Kim mentioned that her son had written a letter supporting [REDACTED] living with her mother because Kyle was "mean to them." She stated that she didn't want her son to be in the courtroom or around Kyle and his new girlfriend.

When asked about her son's statement regarding Kyle touching him, Kim clarified that her son had described Kyle as being "mean, just mean." She stated, "But the touching that was to me. That was, that was to me that he said that to you." When asked when he said this, Kim responded, "Maybe about a year ago, he recalls."

Kim mentioned that Kyle had been "beat up really badly at his work in Southfork." She stated that she had asked one of Kyle's employees why he was beaten up, and the employee allegedly said that Kyle had "tried to take the pants off of one of the workers" while naked, which led to the altercation. Kim stated that when her son told her about Kyle's behavior, "He talks mostly to his dad. But I'm, I think it's more for closure." She mentioned that her son didn't want to pursue charges and was in counseling and therapy.

Kim mentioned that she and her boyfriend were planning to get married in the spring at her grandmother's summer camp. When asked when she last spoke with [REDACTED], Kim stated it was when she was pregnant with her current baby. She described the brief interaction at Walmart where [REDACTED] hugged her and Kim kissed her on the forehead before Salencia appeared with a "really pissed off" expression.

Kim described her efforts to maintain a relationship with [REDACTED] including taking her for smoothies and discussing her future goals. She mentioned that [REDACTED] had expressed interest in joining the Marines, and Kim had taken her to speak with a recruiter. Kim stated that she had tried to arrange visitations with [REDACTED] when Celencia had custody, including inviting her to go sledding, but "they never showed and she never answered back."

When asked if she had any reason to believe she knew what happened to [REDACTED] Kim responded, "I'm done. I wish medically, I tried, like I said, my, my daughter suffers from seizures and we tried to pinpoint if it's genetically or how because [REDACTED] doesn't have it, so it's not from my." She mentioned trying to ask Kyle about his family's medical history because both [REDACTED] and [REDACTED] suffer from seizures.

When asked if she knew if someone hurt [REDACTED] before 911 was called, Kim stated, "No, I don't know." When asked if she ever saw anyone hurt [REDACTED] she responded, "Not that I can say that I can think back that far. Like I said, it's, it's been pretty, it's so far."

I reassured Kim that she was in a safe space and asked if she would be able to tell us if someone had threatened her not to tell law enforcement anything. She responded, "Yeah, I do. Yeah, I, I think that's why. Like I said, even with this one." When asked if anyone had made threats to her recently, Kim stated, "Not lately, but those were the threats other than what we had talked about, these other threats."

Kim mentioned that both Kyle and Salencia know where she lives, and Salencia has been to her home when bringing [REDACTED] for "play dates." She described recent concerning incidents, including someone dressed in black attempting to manipulate her door handle while her boyfriend was up with the baby, and her brake line being cut.

When asked if anyone had told her not to talk about what happened to [REDACTED] sister, Kim stated, "I don't think so. I think just, again, probably Kyle. Because like I said with my, my kids, their, their health, I brought it up with him and you know he's told me to leave it alone."

When asked if [REDACTED] had ever talked to her secretly about anything she was worried or concerned about, Kim stated, "Not that I, I quit. Cause like I said, I, I tried, I tried to, to get her counseling and help, but in their eyes they said it's stupid and you know, you don't, you don't need that, that, that help." Kim mentioned that when she tried to register [REDACTED] for counseling, she was told she wasn't a parent and had no parental rights.

When asked if she could help prove that the girls stayed with the foster grandma until about three weeks before [REDACTED] passed, Kim stated, "I don't I don't think, I don't know if I'd be able to. Cause I don't, I don't know that lady." She mentioned that the foster grandma had "cussed her out" at some point but reiterated that she didn't know her well. When asked if she had ever seen the foster grandma, Kim stated, "I, no, I, I wasn't allowed to see her." She thought she might have seen her once but couldn't be certain.

Kim stated she didn't know where the foster grandma's house was, only that it was "on the hill" in Farmington. At this point, Kim paused to text her son.

Ezzell then asked Kim about if she would be interested in submitting to a polygraph, and Kim thought about it momentarily.

I then explained how polygraph tests work and asked if Kim would be willing to take one in the future. Kim expressed concern about her memory, stating, "I mean, I don't mind, but it's just, it's been so many years, right? I, I just don't want to get it wrong."

I explained that the polygraph is not admissible in Colorado courts and is used as a tool to eliminate suspects. I stated that Kim was "the only person, the last person with [REDACTED] when she died" and that "all the fingers are pointed at you." I clarified that I wasn't saying she was guilty but that the polygraph could help eliminate her as a person of interest. I explained that I would only ask one question, something like: "Did you have anything to do with [REDACTED] death?" I stated that if Kim was innocent, she would pass the polygraph.

I assured Kim that they don't make arrests based on polygraph results and that the goal was simply to find the truth. I stated that if she passed the polygraph, they could "take you off of our list and put our focus somewhere else." I mentioned that Kim didn't need to make a decision about the polygraph that day.

As the interview concluded, Ezzell asked Kim if there was anything else she could think of that might be important for us to know. She responded, "I don't know. I'm just trying to." Ezzell provided Kim with my contact information and encouraged her to reach out if she thought of anything else.

We thanked Kim for meeting with us and congratulated her on her new baby. She mentioned that they were planning to go home and sleep, as they had a ceremony for the baby the following day. When asked about the ceremony, Kim described it as a cleansing ritual in "the beauty way," explaining that it involved waiting for the baby to laugh and that whoever made the baby laugh would be considered the person the baby would "follow in their footsteps." This person would then be responsible for cooking and serving a meal to the entire family.

Kim mentioned that "really, really bad stuff" had been happening around her house lately, making it difficult for her and the baby to sleep. The interview

concluded with expressions of hope that the ceremony would go well, and I walked Kim out.

ADDITIONAL OBSERVATIONS

Throughout the interview, Kim appeared to have difficulty recalling specific details about the day [REDACTED] was taken to the hospital. She frequently stated that she couldn't remember exact details due to the passage of time. Kim also mentioned having suffered a concussion after the incident, which she suggested might have affected her memory.

Kim consistently portrayed Kyle (also referred to as Kaiol) in a negative light, describing him as abusive, alcoholic, and threatening. She alleged that he had made threats to frame her for [REDACTED] death if she pursued child support or made allegations against him.

Kim mentioned several times that her own children suffer from seizures, particularly her daughter [REDACTED] and son [REDACTED]. She drew parallels between her daughter's seizure symptoms and behaviors she had observed in [REDACTED], specifically mentioning that [REDACTED] would "fall" in a manner similar to her daughter before a seizure.

Please review all other reports, documents, and recordings for further information.
